2.2.2	Assessment Process
MS-B	<p>The assessment was conducted by measuring the sufficiency of implementation with the consistency done by the KUD Karya Mandiri to the requirements of RSPO Independent Smallholder Standard, Indonesia National Interpretation for the Production of Sustainable Palm Oil 2020, endorsed by the RSPO Board of Governors on 14 February 2022 and RSPO Certification Systems for Principles & Criteria and RSPO Independent Smallholder Standard Endorsed by the RSPO Board of Governors on 12 November 2020.</p>

The assessment was conducted in three methods: (1) document review, aiming to observe the sufficiency of types or substances from required documents; (2) *interview*, aiming to obtain more detailed information and cross check the information; and (3) field observation, aiming to observe directly the sufficiency of implementation on site.

The scope of this certification activity is 313 smallholders from 3 subdistricts with an area of 493.43Ha consisting of 568 smallholder plots. In conducting the assessment, the auditor team uses the formula $(\sqrt{y}) \times (z)$ where based on the verification results it is stated that the level of risk is high (z = high risk = multiplier of 2) due to some geographical and socioeconomic homogeneity but it is not uniform across the Group and there is no replanting activities. Therefore, the smallholders who were sampled were 36 smallholders from 2 subdistricts, namely Gunung Labuhan Subdistrict and Baradatu Subdistrict.

Some opportunities for improvement of the results **IC (MS-B)** delivered by the MUTU auditor to the management unit and the results are the subject will be verified at the next assessment phase (**ASA-1**).

Improvement of findings from **Main Assessment** findings were observed by auditors at this **IC (MS-B)** assessment. All information obtained was recorded in Check List of PT Mutuagung Lestari (MUTU) and part of **IC (MS-B)**.

The opening meeting was held on 02 May 2023. As for the participants who attended the opening meeting included the Chief of KPKSS, management of KPKSS and Support Team from BWI. Closing meeting was held on 04 May 2023 attended by the same participants as the opening meeting. Management of KPKSS accept all the onsite MS-B audit results.

3.0 ASSESSMENT FINDINGS

3.1 Summary of Assessment Report of the RSPO Certification

MUTUAGUNG LESTARI has conducted an assessment of Koperasi Pemasaran KTNA Sakai Sambayan operation consisting of 313 smallholders.

During the assessment, there were 2 Nonconformities against RISS standard and one (1) opportunity for improvement were identified.

Further explanation of the non-conformities raised and corrective actions taken by the company are provided in section 3.3. The company has already prepared and implemented the corrective actions that had been reviewed and accepted by Auditors in form of documentation evidences e.g. (document record/photographic). Those corrective actions taken that consist of two (2) Major non-conformities had been closed out shall be verified during next assessment.

MUTUAGUNG LESTARI found that Koperasi Permasaran KTNA Sakai Sambayan complied with the requirements of **RSPO Independent Smallholder Standard, Indonesia National Interpretation for the Production of Sustainable Palm Oil 2020**, endorsed by the RSPO Board of Governors on 14 February 2022 and **RSPO Certification Systems for Principles & Criteria and RSPO Independent Smallholder Standard Endorsed by the RSPO Board of Governors on 12 November 2020**.

Therefore, MUTUAGUNG LESTARI Recommends RSPO Certification of compliance is issued.

3.1.1 The system requirements for Group Formation and Management (including the Internal Control System) that are only applicable to the group manager

All members of the KPKSS have signed and accepted the terms of membership. KPKSS can show documents of acceptance of members such as attaching photocopies of Identity Cards, Family Cards, Land Ownership Certificates, signing a Letter of Willingness to take part in RSPO certification, and carrying out RSPO smallholder self-examination. For example, the KPKSS can show the requirements document for Farmer a.n Parman in the form of a photocopy of Identity Card, Family Card, Land Ownership Certificate, letter of willingness to take part in RSPO certification which was signed on 4 January 2022, and an independent inspection was carried out on 3 August 2022 with status passed conditionally and has been approved by the Ratification Commission and Chairperson of the KPKSS. In addition, member farmers have signed commitments from the Cooperative regarding RSPO certification, for example as follows:

Based on interviews with smallholders and field observations on their land, they understand the requirements for membership and the consequences of RSPO certification, such as knowing the requirements for membership, such as the requirements for membership, the internal audit process, and sanctions for violating procedures as well as the benefits and co-benefits of RSPO certification. All members have signed and acknowledged the terms of membership.

MS A:

All members are able to prove their understanding of membership requirements. This is proven by the fact that before joining as a member of the KPKSS, prospective members first complete the requirements and will carry out an independent examination by the ICS Management. In the examination conducted there are several conditions/questions that must be met by prospective members such as having complete identity, the year the land was cleared, the type of pesticide used, etc.

Based on interviews with smallholders and field observations on their land, they understand the requirements for membership and the consequences of RSPO certification, such as knowing the requirements for membership, such as the requirements for membership, the internal audit process, sanctions for violating procedures as well as the benefits and co-benefits of RSPO certification.

A.2 The Group Manager is responsible for managing the Group for certification
A.2.1
E:

The group manager has compiled and planned an ICS implementation work program which is carried out together with the core board which is then disseminated to all members of the association. The implementation of the ICS implementation work program includes:

- Field school training for the period January 2022 – March 2022
- Members' land visits for the period January – December 2022
- Meetings with management and group representatives for the period January 2022 – December 2022
- Internal Control System team training for the period July 2022 – September 2022
- Supporting the Issuance of STDB and SPPL for the period August 2022 – September 2022
- Distribution of Personal Protective Equipment (PPE) to Members for the January 2022 – March 2022 Period
- Annual Member Meeting (RAT) in January 2023
- Internal audit to be carried out in 2022 on each group of cooperative farmers

Based on the results of interviews with the Group Manager it is known that control over the implementation of routine program activities is carried out in meeting activities. This is done to ensure that every planned activity is carried out and to follow up if it is felt that there are still things that are lacking every month.

MS A:

There is documentary evidence to show that the group manager has officially joined the group. Individual members can show a copy of the agreement with the group manager. The group manager keeps the original contract agreement in the office. The contract agreement includes the agreement of the farmer members to comply with all the rules that apply in the KPKSS. Compliance with the

KPKSS rules by smallholder members is assessed through annual internal inspections/audits.

Based on field observations and interviews with farmers it is known that individual members can demonstrate compliance with the KPKSS Rules as evidenced by farmers being able to describe the RSPO Process, prohibition of poaching, not burning during land clearing, safe work practices, waste management and others.

MS B:

same as A 2.1 MSA

A.2.2

E:

During the audit, the group of managers can demonstrate an understanding of the RSPO ISH standard. KPKSS has established an organization for operational management and job responsibilities. The ICS organization consists of:

- Supervisory Board
- Chairman of the Cooperative
- Treasurer
- Secretary
- ICS (Approval and Sanctions Board and Internal Inspector)
- ICS (Secretary and finance, good agricultural practices, member development)
- Sales and Purchases
- Fire and disaster control

MS A, MS B:

During the audit, the group manager can provide evidence that all members comply with the RSPO standard for independent smallholders. The group manager can also demonstrate capacity in providing guidance to farmers such as having adequate educational background and sufficient experience and having developed an organizational structure with adequate persons in charge.

Steps / Efforts taken for example:

- Regular training activities
- Provide a field activity log book for each farmer

KPKSS has established an organization for operational management and job responsibilities. The ICS organization consists of:

- Supervisory Board
- Chairman of the Cooperative
- Treasurer
- Secretary
- ICS (Approval and Sanctions Board and Internal Inspector)
- ICS (Secretary and finance, good agricultural practices, member development)
- Sales and Purchases
- Fire and disaster control

A.2.3

E:

KPKSS already has an annual training plan for association administrators and all of its members. The training plan is included in the KPKSS Work Program for the 2022 period, including:

- Field school training for the period January 2022 – March 2022
- Members' land visits for the period January – December 2022
- Meetings with management and group representatives for the period January 2022 – December 2022
- Internal Control System team training for the period July 2022 – September 2022
- Supporting the Issuance of STDB and SPPL for the period August 2022 – September 2022
- Distribution of Personal Protective Equipment (PPE) to Members for the January 2022 – March 2022 period
- Annual Member Meeting (RAT) in January 2023

Based on the results of interviews with the group manager, it is known that all training activities are also continuously being developed in accordance with the requirements in the RSPO standard so that the preparation is carried out together with Business Watch

Indonesia and Solidaridad who are the KPKSS assistants in certification activities.

MS A:

The KPKSS can show the recording of the attendance list of members who have participated in the training for the January-October 2022 period. From the results of the document verification, it was known that all KPKSS members have attended the training. For example, here's the proof:

- Socialization related to worker violence which was attended by Ichwan S.'s group which was held in Negeri Ujan Mas Village on January 25 2023 and was attended by 58 farmers
- Outreach related to worker discrimination which was attended by the Mualim group which was held in Bengkulu Tengah Village on January 23 2023 and was attended by 22 farmers
- Socialization regarding the preparation for RSPO certification which was attended by the Suratmin group which was held in Sari Jaya Village on April 13 2022 and was attended by 4 farmers
- Socialization related to Occupational Health and Safety which was attended by Ichwan's group which was held at Gunung Sari on April 11 2022 and was attended by 23 farmers
- Socialization related to Occupational Health and Safety which was attended by the Wagiaman group which was held in Bumi Rejo on 10 April 2022 and was attended by 20 farmers
- Socialization related to forest and land fire control which was attended by Ichwan S.'s group which was held in Negeri Ujan Mas Village on January 31 2023 and was attended by 33 farmers
- Outreach related to High Conservation Values which was attended by the M. Syaid group which was held in Negeri Sungkai Village on January 19 2023 and was attended by 10 farmers

MS B:

KPKSS already has program documents and realization of field school training for farmers such as in the period October 2022, January 2023 and February 2023.

However, during interviews with the 36 farmers who were sampled, obtained information that there were some farmers who did not understand the RSPO independent smallholder standards in the smallholders' field. The results of interviews with ICS and verification of socialization/field school documents revealed that farmers who did not understand this had been socialized.

From this, the KPKSS has the opportunity to ensure that the evaluation of the results of the outreach/field school that has been carried out for farmers is understood so that all farmers can understand it. **OFI**

B – ICS: Policies and Management
B.1 The group Internal Control System contains documented policies and procedures for operational management.
B.1.1
E:

KPKSS has formed an organization for operational management as well as job responsibilities. The organization consists of:

- Supervisory Board
- Chairman of the Cooperative
- Secretary
- Treasurer
- ICS:
 - Endorsement and Sanctions
 - Internal Inspector
 - Secretariat and Finance
 - Good Agricultural Practices
 - Member Development
 - Sales and Purchases
 - Fire and disaster control

KPKSS has 45 operational procedures, including a member exit procedure listed in the SOP for joining and Termination members with the number SOP 03/SOP/KPKSS/2022 dated 25 Feb 2022 which explains the procedures for exiting and entering KPKSS members.

KPKSS also has a member sanction procedure listed in the SOP listed in the Member Reminder and Sanctions SOP Number 03/SOP/KPKSS/2022 dated 25 Feb 2022 which explains the sanctions for members who do not follow the KPKSS rules.

In addition, the Cooperation also has a procedure for carrying out internal audits listed in the internal audit procedure Number 20/SOP/KPKSS/2022 dated 25 Feb 2022 which explains that internal audits are carried out every six months.

MS A & MS B

ICS KPKSS has carried out internal audit activities to carry out continuous business improvements for all members who are members of the cooperative. Based on document verification and interviews with management, it is known that all members have carried out internal audits, for example:

- Audit on 20 August 2022 which was conducted for members of the landowners with registration number KSS110254 in Baradatu District.
- Audit on 21 August 2022 which was conducted for members of the land owners with the register number KSS110256 in Gunung Batin District.
- Audit on 05 August 2022 which was conducted for members of the land owners with the registration number KSS020077 in Gunung Labuhan District.

It is known that the existing findings have been corrected, such as not using certified seeds, followed up with training on certified oil palm varieties and procuring oil palm seeds/seeds for the needs of individual members. From the results of the review of documents and interviews it is also known that all audit findings have been followed up and made improvements.

B.1.2

E, MS-A and MS-B

KPKPS already has basic information consisting of member names, plantation information, production data and legal documents (land certificates, land certificates from the village). KPKPS has 313 smallholders consisting of 568 plantation blocks with a total area of 459.86 Ha which is the scope of RSPO certification in this MS-B audit activity.

All members prior joint with the cooperation need to complete the requirements as a prospective member, among others copy id cards, land ownership evidence, family identity cards and etc. Furthermore, the members also need to sign several documents as follows:

- Registration form
- Registration form for prospective RSPO members, which contains a commitment to provide all the information needed in the RSPO certification process, improvement of gardening practices according to RSPO standards, willingness to attend training and KPKSS directions, and continuous improvement.
- Data on farmers and farms of prospective member farmers, copies of identity cards, family cards, documents for taking GPS points for the location of prospective member farmer's gardens, and copies of land legality documents.
- Member's Statement letter of RSPO Certification commitment as mentioned in annex 2.

As an example, the member's documents with registration number KSS110256 in Gunung Batin District have been shown, including the Statement and signature of the Grower according to attachment 2, Registration Form, Registration Form for prospective RSPO members, Smallholder Farmer Data which shows that the member has 2 fields with an area of 0.75 each ha, personal identification, family card, and *SHM* 2 plots of land with an area of 0.75 ha each.

C – ICS: Group business planning

C.1 The group has a group Business Plan prepared with the participation and contributions of group members.

C.1.1

E:

The KPKSS program is discussed, formulated, and determined at the Annual Member Meeting. Evaluation and Review/Review of the

programs that have been formulated are also carried out at the Annual Member Meeting. Production recording is carried out by farmers in the Farm Record Book. Then the Group Leader recaps the production of each group member, and records it in the FFB Production Data at the KPKSS Office.

The results of the review of the KPKSS Work Program document for the 2021 fiscal year do not contain a work program for expanding RSPO certification. The results of the study of the KPKSS Work Program document for the 2022 fiscal year, there is a program to expand the active membership of cooperatives from their potential. The results of the interviews revealed that KPKSS has fostered a number of 1,003 farmers, and currently 313 farmers are in the MS-B certification process. The results of the interviews revealed that after the 313 members passed certification process, its planning to involving to others members.

MS A:

All members of the KPKSS are involved in the implementation and review of the business plan. Planning and review are carried out in the Annual Member Meeting forum, in which all members have equal rights of opinion. The KPKSS program is discussed, formulated, and determined at the Annual Member Meeting. Evaluation and Review/Review of the programs that have been formulated are also carried out at the Annual Member Meeting. The 2022 program was implemented on February 20, 2023 which was attended by management and members, as well as the government, such as the Head of the Cooperative Service and the Head of the Way Kanan District Plantation Service. All members of the KPKSS are also involved in implementing business programs in the field. This is done by ICS in the implementation of socializations that are packaged in the socialization field in the smallholder field in farmer groups totaling 13 farmer groups with 313 smallholder members.

MS B:

KPKSS proves its stability, growth, and ability to support itself financially. Documents for Cash Outflows - Inflows for 2022 for the period January - December 2022 have been shown. Based on the document review show that as of 27 December 2022 it is in a surplus condition. Based on interviews with ICS, its known that some of the economic activities of KPKSS include procurement of certified seeds. An invoice for ordering oil palm germination seeds on February 22, 2023 for 300 PPKS (Palm Oil Research Center) sprouts has also been shown and proof of payment has been shown.

C.2 The ICS of the group is integrated with the Group's Management Plan.
C.2.1
E:

There is a Group Management Plan, which is included in the natural school Plan and its realization, for 2023. The training was delivered by ICS. The following is the focus of the training/field school materials, as follows:

- January 2023, planned for 23 – 30 January 2023 for 13 farmer groups in 3 sub-districts. With materials on aspects of employment and best agricultural practices, including employment discrimination, OHS, harassment and violence against workers, nurseries, certified seed varieties, nursery techniques, planting techniques, fertilization, spraying, management of pesticides and used pesticide packaging, and harvesting.
- February 2023 is planned for 8 – 20 February 2023 for 13 farmer groups in 3 sub-districts. With material for strengthening RSPO certification including, Plantation logbooks, premiums, and RSPO standards.

Implementation of field schools, including:

- Mu'alim group from Gunung Labuhan sub-district, with 30 participants on 23 January 2023 and 30 participants on 5 February 2023.
- The Wagiman Group from Negara Batin District on 28 January 2023 with 26-member farmer participants, and on 13 February 2023 with 27-member farmer participants.
- The Romadin group from Baradatu District on 26 January 2023 with 9 farmer members as participants, and on 10 February 2023 with 9 farmer members as participants.

MS A:

The KPKSS program is discussed, developed, and determined at the Annual Member Meeting. Evaluation and Review/Review of the programs that have been formulated are also carried out at the Annual Member Meeting. The 2022 program was implemented on February 20, 2023 which was attended by management and members, as well as the government, such as the Head of the Cooperative Service and the Head of the Way Kanan District Plantation Service.

MS B:

ICS KPKSS has carried out internal audit activities to carry out continuous business improvements for all members who are members of the cooperative. Based on document verification and interviews with management, it is known that all members have carried out internal audits, for example:

- Audit on 20 August 2022 which was conducted for members of the landowners with registration number KSS110254 in Baradatu District.
- Audit on 21 August 2022 which was conducted for members of the land owners with the register number KSS110256 in Gunung Batin District.

D – ICS: Group Trading System for Certified Volumes
D.1 The group has a procedure and system in place for the tracking of FFB.
D.1.1
E, MS-A and MS-B

The KPKSS has documentation of the production and sale of FFB for each member for the period April 2022 to March 2023. However, the KPKSS still has not received certified FFB volumes, so there has been no physical sale of certified products.

The Group Manager has a FFB tracking form if group members sell FFB physically which provides information on FFB Price, FFB Volume, income, buyers and harvesting blocks.

Based on the results of field observations and interviews with member farmers and farmer workers, it is known that farmers can explain the calculation of FFB production from farmers' fields. Regarding the separation between certified and non-certified FFB, in general, only have one piece of land that is included in the scope of certification. The results of interviews with the sampled farmers revealed that the ICS TEAM also carried out monitoring related to the farmers' FFB production and also coordinated with FFB agents.

D.3 The group has a procedure and system for premium distribution.

D.3.1
E:

Regarding procedures and system for premium distribution, based on Auditor verification obtained information below:

- KPKSS has an SOP of the Premium Distribution Mechanism Number 45/SOP/KPKSS/2022 with an effective date of August 1, 2022. The procedure explains that the management of Premium funds is allocated for several needs such as updating member data, mapping new land, coaching members, independent inspections, and external inspections. If there are more funds, they will be used for the needs of members' facilities and infrastructure, Cooperative Operational Assistance, and for Social and others. However, the SOP has not explained the time for paying the premium.
- The minutes of the meeting on the mechanism for sharing the RSPO certification premium for the Sakai Sambayan KTNA Cooperative on July 28 2022 revealed that a meeting had been held on the mechanism for sharing the RSPO certification premium for the Sakai Sambayan KTNA Cooperative with the Chairmen of the Farmer Groups. However, the agreement from the results of the deliberation has not yet explained the time for paying the premium.
- Based on the results of interviews with the 36 farmers who were sampled, it was found that the farmers were not aware of the existence of a premium from RSPO certification, how to use the premium and when to pay the premium.
- The results of interviews with the KPKSS ICS found that outreach related to premiums had been carried out, but the socialization provided did not discuss how to use premiums and when to pay premiums. In addition, the KPKSS has not been able to show evidence that the amount/value, premium, and time of premium payment are conveyed clearly and transparently to all group members.

KPKSS has not been able to show evidence that the agreement on the results of the deliberations on the distribution of premiums includes the time for premium payment and the amount/value, premium, and time for premium payment is conveyed clearly and transparently to all group members. **NCR No. 2023.01**

For example, implementation of field schools, among others:

- Mu'alim group from Gunung Labuhan District, with 30 participants on 23 January 2023 and 30 people on 5 February 2023.
- Wagiman group from Negara Batin Regency on January 28 2023 with 26 farmer participants, and on February 13 2023 with 27 farmer participants.
- The Romadin group from Baradatu Regency on 26 January 2023 with 9 farmer participants, and on 10 February 2023 with 9 farmer participants.

Based on field observations and interviews with KPKSS members, including group members who are members of the Suwardi, Romadin, and Wagiman smallholder groups, it is known that they understand and implement effective field smallholder management. Evidently, KPKSS members who own the land have a plantation logbook that contains transaction data on the production and sale of FFB. FFB weighing notes dated April 1, 2 and 3 2023 have also been shown which informs the weight of FFB and the value of FFB purchases, as well as payment of the proceeds from the sale of FFB to KPKSS members with register number KSS110254.

MS B:

Based on field observations and interviews with KPKSS members, including group members who are members of the Suwardi, Romadin, and Wagiman smallholder groups, are known to have understood and implemented how to managed the area effectively. It has been demonstrated that the members of the landowners' KPKSS have a plantation logbook containing data on FFB production

and sales transactions. The FFB weighing note dated 1, 2 and 3 April 2023 has also been shown which informs the weight of FFB and the value of FFB purchases, as well as payment of the proceeds from the sale of FFB for KPKSS members with register number KSS110254.

Smallholders implement good agricultural practices (GAP) on their farms.

E:

KPKSS has shown a statement letter that has been signed by the smallholders, which refers to annex 2 of RISS NI 2022. Among other things, it stated that the KPKSS member farmers stated their willingness to comply with the principles, criteria and indicators of the RSPO standard for independent smallholders, including implementing best management practices. For example, a member statement letter with registration number KSS110254 signed on 02 February 2023.

MS A:

All members of the KPKSS, totaling 313 smallholders, have completed training on GAP. The training covers nurseries, certified varieties, planting, manual plant maintenance, fertilizing, spraying and harvesting. Training is held regularly, in field schools delivered by ICS. ICS created a training program for 13 members of farmer groups spread across 3 districts with 313 smallholder participants. As an example of the implementation of field schools, among others:

- Mu'alim group from Gunung Labuhan District, with 30 participants on 23 January 2023 and 30 people on 5 February 2023.
- Wagiman group from Negara Batin Regency on January 28 2023 with 26 farmer participants, and on February 13 2023 with 27 farmer participants.
- The Romadin group from Baradatu Regency on 26 January 2023 with 9 farmer participants, and on 10 February 2023 with 9 farmer participants.

Based on field observations and interviews with KPKSS members, including group members who are members of the Suwardi, Romadin, and Wagiman smallholder groups, it is known that farmer members of the KPKSS understand and are able to explain the implementation of the GAP. The results of field observations on the plantations of farmer members of the KPKSS in the Baradatu and Gunung Labuhan areas also found that farmers had implemented GAP in plantation management. From the farmer's log book it is known that manual and chemical plant maintenance, as well as fertilization have been recorded.

MS B:

PRINCIPLE 2: ENSURE LEGALITY, RESPECT FOR LAND RIGHTS AND COMMUNITY WELLBEING

2.1

Smallholders have legal or customary rights to use the land in accordance with national and local laws and customary practices.

E

The KPKSS has complete information regarding the coordinate points or plot maps of each member's land (a list of plot coordinate points for each farmer can be seen in Appendix 3). Then every member who will become a member of the KPKSS must have legal documents that are valid and recognized by regulations in Indonesia. The legality documents for farmers incorporated in the KPKSS consist of SHM, SKT, SKJB, and Grant Letters.

MS A

Every member who will become a member of the KPKSS must have legal documents that are valid and recognized by regulations in Indonesia. The legality documents for farmers incorporated in the KPKSS consist of *SHM*, *SKT*, *SKJB*, Sporadic, and Grant Letters. As an example, the following is a document on the legality of land belonging to farmer members, namely:

- Farmers on behalf of Sugeng with land legality in the form of Freehold Certificates (SHM) covering an area of 8,432 M2 (0.8432 Ha) with SHM Number 00065 on September 16 2014 issued by the Head of the Way Kanan District Land Office.

- The farmer on behalf of Supriyono with the legality of the land in the form of a 1.25 Ha Property Sale/Purchase Agreement (SKJB) on September 13 2020 and has been known to witnesses and the Head of Bengkulu Village.
- Farmers on behalf of Saimudin with land legality in the form of Freehold Certificates (SHM) covering an area of 5,407 M2 (0.5407 Ha) with SHM Number 525 on July 5 2019 issued by the Head of the Way Kanan District Land Office.
- Farmers on behalf of Selamat with land legality in the form of a Land Certificate (SKT) covering an area of 7,500 M2 (0.75 Ha) with SKT Number 142/093/GS/X/2022 on October 18, 2022 issued by the Head of Gunung Sari Village.

All KPKSS members who are within the scope of certification also have Cultivation Registration Certificates (STDB) of 313 STDB as an example STDB on behalf of Wagiyem with STDB Number 525/272/STDB/IV.05-WK/2022 which was issued on 7 November 2022 and in the name of Supardi with STDB Number 525/184/STDB/IV.05-WK/2022 issued on 7 November 2022.

KPKSS already has a statement of readiness to manage and monitor the environment (SPPL) of the Koperasi Pemasaran KTNA Sakai Sambayan with a land area of 460.36 Ha which was ratified on December 12, 2022 and known by the Head of the Way Kanan Regency Environmental Service.

MS B

The KPKSS has a land boundary delineation procedure listed in the Farm Identity procedure with document number 40/SOP/KPKSS/2022 with an effective date of 01 March 2022, which was socialized to association members on 5 July 2022. Based on the results of field visits and interviews with 36 farmers from 2 In the sample sub-districts, it is known that each plot of land owned by the farmer has been demarcated in the form of Areca, Coffee, Rubber, and Gaharu Plants. Every farmer already knows clearly the boundaries of his plot of land. Apart from that, on Farmers' land there is also the identity of each smallholder's field with information on the farmer's name, land area, member ID, and year of planting.

Smallholders have not acquired lands from indigenous peoples, local communities or other users without their free, prior and informed consent (FPIC), based on a simplified FPIC approach.

2.2.

E, MS-A and MS-B

Based on the results of a document review, interviews with KPKSS officials, interviews with 36 sample farmers and the Way Kanan Regency Plantation Office, it was found that most of the land acquisition was hereditary and some were sales and purchases. Information regarding land acquisition can also be seen in the Land Certificate or Member Ownership Certificate. Every sale and purchase of land is always based on the agreement of both parties witnessed by the parties including village officials.

All members of the KPKSS have signed the Disclosure Form for the history of land tenure and use and the existence of land conflicts in their plots of land. Based on the formular verification, it is known that the land of the member farmers is hereditary land and also from land purchases. For example, the Disclosure Form for the history of land tenure and use and the existence of land conflicts in the field plots for example on behalf of Jumadi which was signed on 17 January 2022 and on behalf of Sumadi on 18 January 2022.

Do any smallholders within the group have plans for new plantings of oil palm? If none, SKIP

E:

Based on the association's plan document, it is known that until 2023 there is no plan for farmers to plant new oil palms.

Verification of documents, interviews with association administrators and farmers during field visits, it was found that all members had signed and acknowledged the terms of membership. All members before joining the association need to complete the requirements as prospective members, including photocopy of ID card, proof of land ownership, family identity card and a statement of commitment to comply with the Association's rules as referred to in attachment 2 are:

- Not clearing or acquiring land from indigenous peoples, local communities, or other users without their free, prior and informed consent (FPIC), based on a simplified FPIC approach
- No new planting or no expansion of existing farms in primary forests, HCV areas, HCS forests, in riparian areas, or on steep slopes (more than 25 degrees or as in National Interpretation)
- Protect HCVs and HCS forests through the precautionary practices approach
- No new planting on peat and replanting on peat only in areas with low risk of flooding and saline intrusion

MS A:

KPKSS members have carried out FPIC training which was held on March 16-30 2022 which was carried out in several stages of socialization. This training was conducted as an effort by KPKSS to provide an understanding of the basic concept of FPIC, the importance of FPIC, and conflict resolution on independent smallholder land.

MS B:

Based on the results of document reviews and interviews with KPKSS officials, for new plantings carried out by farmers, the FPIC approach will be used and will not clear land in HCV areas, Peat, etc. in accordance with the commitments signed by the farmers.

From the explanation above it can be concluded that these members have made a written statement of commitment to follow RSPO certification. The results of interviews with several members revealed that their understanding of and commitment to implementing the RSPO P&C for Independent Smallholders was quite good, especially with regard to the commitment to ensure that forced labor practices did not exist in plantation operations and stop existing forced labor practices. KPKSS already has a list of workers who work for all members per farmer group such as the Ichwan S, Romadin, M. Syaid groups and so on. From this list, the majority of the existing workforce comes from the surrounding community who live in Way Kanan Regency.

Based on the explanation above, it can be concluded that the KPKSS has a statement of commitment to participate in RSPO certification, one of which is ensuring that there are no forced labor practices in plantation operations and stopping existing forced labor practices.

MS A:

All KPSS members, totaling 313 farmers, have received socialization that children are prohibited from being employed and prohibited from exploiting humans.

KPKSS was also able to show examples of evidence of socialization documents to 120 farmers regarding the prohibition of forced labor on plantations as stated in the title of the document for developing field school activities for farmers with the following sampling:

- Socialization related to worker violence which was attended by Ichwan S.'s group which was held in Negeri Ujan Mas Village on January 25 2023 and was attended by 58 farmers
- Outreach related to worker discrimination which was attended by the Mualim group which was held in Bengkulu Tengah Village on January 23 2023 and was attended by 22 farmers
- Socialization regarding worker discrimination which was attended by the Sukiman group which was held in Gunung Katun Village on June 24 2022 and was attended by 4 farmers
- Outreach related to worker discrimination which was attended by the Mualim group which was held in Bengkulu Tengah Village on January 23 2023 and was attended by 22 farmers
- Outreach related to worker discrimination participated by the Romadin group which was held in Cugah Village on January 26 2023 and was attended by 6 farmers
- Socialization related to the RSPO certification system which was attended by the Mualim group which was held in Gunung Katun Village on June 24 2022 and was attended by 4 farmers
- Socialization regarding the preparation for RSPO certification which was attended by the Suratmin group which was held in Sari Jaya Village on April 13 2022 and was attended by 4 farmers

Based on the results of interviews with farmer members who were sampled, it is known that members who use labor for harvesting and maintenance activities, there are no document retention activities by employers and each worker can easily refuse work/dismiss employees working relationship with the member concerned if necessary. It is ensured that there is no forced labor activity in the operational areas of KPKSS members.

MS B:

KPKSS can show sample workforce documents that are divided into each group, for example:

- The Ichwan S Group has 10 workers
- The Romadin group has 5 workers
- The Sukiman group has 5 workers
- The Sutrisno's group has 8 workers
- The Sigit Aryanto group has 6 workers
- The M. Syaid group has 7 workers
- The Mualim group has 11 workers

Based on the results of interviews with farmers, the entire work in the field was carried out by the farmer's family themselves and only some farmers used other people to help with work in the field.

Workers who are members of the farmers who are members of the KPKSS have paid wages in accordance with the results of the work obtained by the workforce.

From the results of interviews with farmers in the field, information was obtained that wages were paid immediately after the workers had finished doing the work. The worker is also not set for his working hours and the calculation of wages is calculated based on the work that is obtained by the worker. The KPKSS unit can also show examples of proof of payment to workers, namely on March 10, 2023 workers on behalf of Aris Susanto get 1030 kg of harvest and get a wage of Rp. 206,000, - and its above the stipulated minimum wages that determined by the governments.

Based on the results of field visits to farmers' fields in Gunung Labuhan District, information can be obtained that other activities such as spraying or manual weeding are carried out by the farmers themselves, but in other locations spraying activities are carried out by workers recruited by farmers.

And the results of interviews with these farmers also show that the wages paid to workers are in accordance with the results of their work and have met the 2023 Wayan District Minimum Wage.

MS B:

Based on the results of interviews with the Group Manager, it is known that some farmers employ labor for harvesting. Workers' wages varied depending on the size of the member farmer's land. The results of the interviews revealed that in carrying out the harvest, workers were paid Rp. 150/Kg; IDR 200/Kg; and IDR 250/Kg. if the harvester is simulated with 150/Kg with an average harvest of 1 ton per day, you will earn IDR 150,000/ton. Simulated to work in 1-month (21 days) workers will get a wage of Rp. 3,150,000 where the District Minimum Wage (UMK) for Way Kanan Regency in 2023 is IDR 2,847,450

KPKSS can also show examples of proof of payment to workers, namely on March 10, 2023 workers on behalf of Aris Susanto get 1030 kg of harvest and get a salary of Rp. 206,000, -

From the explanation above it can be concluded that these members have made a written statement of commitment to follow RSPO certification. The results of interviews with several members revealed that their understanding of and commitment to implementing the RSPO P&C for Independent Smallholders was quite good, especially with regard to the commitment to No discrimination, harassment or violence on plantations. This is evidenced by the results of interviews with members which state that each member and management have never discriminated against, abused or abused their workers during operational activities on the plantation.

Based on the explanation above, it can be concluded that the KPKSS has a statement of commitment to participate in RSPO certification, one of which is to ensure that there is no discrimination, harassment or violence on plantations.

KPKSS has shown a statement letter that has been signed by the smallholders, which refers to attachment 2 of RISS NI 2022. Among other things, it states that KPKSS member farmers express their willingness to comply with the principles, criteria, and indicators of the RSPO standard for independent smallholders, including protecting HCV and HCS forests with precautionary practices be careful. For example, a member statement letter with registration number KSS110254 signed on 02 February 2023.

MS A:

KPKSS members have completed training on the 2020 RSPO Standard. The training has also covered HCV and HCV management with the precautionary principle. Training is held regularly, in field schools delivered by ICS. ICS created a training program for 13-member farmer groups, spread out in 3 sub-districts.

Implementation of field schools, including:

- Mu'alim group from Gunung Labuhan sub-district, with 30 participants on 5 February 2023.
- The Wagiman Group from Negara Batin District on 13 February 2023 with 27-member farmer participants.
- The Romadin group from Baradatu District on 10 February 2023 with 9 farmer members as participants.

MS B:

Based on field observations and interviews with farmers found that farmer members of the KPKSS understood and were able to explain the implementation of the GAP. The results of field observations at the farms of KPKSS member farmers in the Baradatu and Gunung Labuhan areas also revealed that farmers had implemented HCV management along the river by placing a "Buffer Zone" sign. The results of field observations also show that there are still farmers who are members of the KPKSS who have not fully managed the river riparian area, which has been discussed in indicator 4.7.

From the explanation above it can be concluded that these members have made a written statement of commitment to follow RSPO certification. The results of interviews with several members revealed that their understanding of and commitment to implementing the RSPO P&C for Independent Smallholders was quite good, especially with regard to the commitment not to use fire to prepare land or control pests. This is evidenced by the results of interviews with members who stated that each member and management did not burn to prepare land or control pests on plantations.

MS A, MS B:

KPKSS can also demonstrate socialization related to not burning to prepare land or controlling pests as stated in the title of the field school development activity document to farmers with the following examples:

- Socialization related to forest and land fire control which was attended by Ichwan S.'s group which was held in Negeri Ujan Mas Village on January 31 2023 and was attended by 33 farmers
- Outreach related to High Conservation Values which was attended by the M. Syaid group which was held in Negeri Sungkai Village on January 19 2023 and was attended by 10 farmers

In addition, in pest control from the results of interviews with farmers in the presence of snakes and eagles can eradicate pests such

as rats in plantations.

Riparian buffer zones are identified and managed to ensure they are maintained and/or enhanced.		
<p>E:</p> <p>The results of the interviews revealed that the KPKSS had identified the types of HCVs found in the plantation areas of the KPKSS members. The results of the most recent study in February 2023 found that there were river banks in the areas of the KPKSS members in Gunung Labuhan, Negara Batin and Baradatu Districts.</p> <p>KPKSS has shown a statement letter that has been signed by the farmer members of the KPKSS, which refers to attachment 2 of RISS NI 2022. Among other things, it mentions that the farmer members of the KPKSS stated their commitment not to carry out new plantings or expansion of existing planting field in primary forest, HCV areas, HCS forest, riparian areas, or steep slopes. For example, a member statement letter with registration number KSS110254 signed on 02 February 2023.</p> <p>MS A:</p> <p>All members of the KPKSS, totaling 313 smallholders, have completed training on GAP. The training also includes management of watershed buffer areas and action plans to maintain/or enhance watershed buffer areas. Training is held regularly, in field socialization delivered by ICS. ICS created a training program for 13 members of farmer groups spread across 3 districts with 313 smallholder participants.</p> <p>As an example of the implementation of field schools, among others:</p> <ul style="list-style-type: none"> • Mu'alim group from Gunung Labuhan District, with 30 participants on 23 January 2023 and 30 people on 5 February 2023. • Wagiman group from Negara Batin Regency on January 28 2023 with 26 farmer participants, and on February 13 2023 with 27 farmer participants. • The Romadin group from Baradatu Regency on 26 January 2023 with 9 farmer participants, and on 10 February 2023 with 9 farmer participants. <p>Based on field observations and interviews with KPKSS members, including group members who are members of the Suwardi, Romadin, and Wagiman smallholder groups. The results of observations and interviews show that not all smallholder members of the KPKSS understand training, which is a discrepancy in indicator 4.7 MS-B.</p> <p>MS B:</p> <p>Based on document review, field observations, and document review revealed:</p> <ul style="list-style-type: none"> • The SOP for River Borders and Springs with number 28/SOP/KPKSS/2022 revision 01 issued on 25 February 2022 explains that farmers are not allowed to apply fertilizers and pesticides within a distance of 20 m from river banks or springs. • Weed Control SOP with code 10/SOP/KPKSS/2022 revision 01 issued on 25 February 2022 found that the details of spraying work were not carried out in areas including HCV. • Results of interviews with ICS KPKSS and Sampling farmers found that member farmers had been given spraying and HCV training. Meanwhile, socialization with workers who work for farmers has not been fully carried out by ICS. • The results of field observations at the location of the KPKSS members with member ID 110256 in Baradatu District, it is known that there are spray marks on the oil palm tree disks on the farmer's land by the river. • The results of interviews with members of the KPKSS with member ID 110256 found that the spraying activities were carried out by workers who were paid by the farmers. <p>Based on this evidence, KPKSS has not been able to show evidence that the planters maintain/or increase the buffer zone of the river area in accordance with the SOP they already have. This becomes NCR 2023.02.</p>

MS A:

KPKSS has carried out socialization related to the prohibition of not using pesticides with the active ingredient paraquat to deal with pests to farmers 313 which is contained in the title of the field school training activity document for farmers. KKPSS can also show the socialization which was held on January 21, 2022 which was broadcast by 33 farmers which was held in Gisting Jaya Village.

MS-B:

Based on the results of interviews with a group of farmers in Gunung Sari Village, information was obtained that the farmers did not use the pesticide with the active ingredient paraquat and there were no female workers carrying out the spraying work.

In addition, KPKSS has a temporary storage area for hazardous and toxic waste located at the KPKSS office location. From the

observation that waste management has been managed properly and there is no issue of hazardous and toxic waste pollution to the environment.

MS A All 313 smallholder KPKSS Members have completed Best Agricultural Practice training, including discussing Integrated Pest Management. Training is held regularly, in field schools delivered by ICS. ICS created a training program for 13 members of farmer groups spread across 3 districts with 313 smallholder participants. As an example of the implementation of field schools, among others: <ul style="list-style-type: none"> • Mu'alim group from Gunung Labuhan District, with 30 participants on 23 January 2023 and 30 people on 5 February 2023. • Wagiman group from Negara Batin Regency on January 28 2023 with 26 farmer participants, and on February 13 2023 with 27 farmer participants. • The Romadin group from Baradatu Regency on 26 January 2023 with 9 farmer participants, and on 10 February 2023 with 9 farmer participants. Based on field observations and interviews with 39 farmer members of the KPKSS, it was found that they understood and could explain the concept of IPM. Based on the results of interviews and field observations, it is known that there are no traces of pest attack. The results of the interviews revealed that the rats had been controlled naturally by the presence of snakes and wild eagles in the planting field areas of the KPKSS member farmers.

NCR No.	:	2023.01	Issued by	:	Rahmat Abdiansyah
Date Issued	:	05 May 2023	Time Limit	:	04 May 2024
NC Grade	:	Major	Date of Closing	:	May 28, 2023
Standard Ref. & Requirement	:	D.3.1 E: The group and group manager have agreed on how the premiums should be used and the agreement is recorded and communicated to the group members. Prices, premiums, and timing of premium payment are clearly communicated and transparent to all group members. Premiums disbursed to members at all stages are recorded and the premiums are paid in a timely and convenient manner. MS-A: The disbursement of premiums, including price and timing of the disbursement to group members is clearly recorded. MS-B: Same as D3.1 MS A			
Evidence observed (filled by auditor): E: <ul style="list-style-type: none">SOP of the Premium Distribution Mechanism Number 45/SOP/KPKSS/2022 with an effective date of August 1, 2022. The procedure explains that the management of Premium funds is allocated for several needs such as updating member data, mapping new land, coaching members, independent inspections, and external inspections. If there are more funds, they will be used for the needs of members' facilities and infrastructure, Cooperative Operational Assistance, and for Social and others. However, the SOP has not explained the time for paying the premium.The minutes of the meeting on the mechanism for sharing the RSPO certification premium for the Sakai Sambayan KTNA Cooperative on July 28 2022 revealed that a meeting had been held on the mechanism for sharing the RSPO certification premium for the Sakai Sambayan KTNA Cooperative with the Chairmen of the smallholder Groups. However, the agreement from the results of the deliberation has not yet explained the time for paying the premium.Based on the results of interviews with the 36 smallholders who were sampled, it was found that the smallholders were not aware of the existence of a premium from RSPO certification, how to use the premium and when to pay the premium.The results of interviews with the KPKSS ICS found that outreach related to premiums had been carried out, but the socialization provided did not discuss how to use premiums and when to pay premiums. In addition, the KPKSS has not been able to show evidence that the amount/value, premium, and time of premium payment are conveyed clearly and transparently to all group members.					
Non-Conformance Description (filled by auditor): KPKSS has not been able to show evidence that the agreement on the results of the deliberations on the distribution of premiums includes the time for premium payment and the amount/value, premium, and time for premium payment is conveyed clearly and transparently to all group members					
Root Cause Analysis (filled by organization audited): Independent smallholder, members of the <i>Koperasi Pemasaran KTNA Sakai Sambayan</i> certification do not yet know the exact premium distribution mechanism and when the premium distribution will be given. The SOP for the distribution of premiums for the Sakai Sambayan KTNA Marketing Cooperative has not included the time for distributing the premium to member smallholders and the member smallholders also do not clearly know the usage, amount and timing of premium distribution.					

Correction (filled by organization audited):

The *Koperasi Pemasaran KTNA Sakai Sambayan* held a joint meeting with the ICS Team, Group Chair and Group Member Representatives to discuss the distribution of premium use and determine the time for premium distribution to members, then socialize the results of the decision to all members of the RSPO certification group.

Updating of the Premium SOP by the KPKSS team together with ICS and the Group Chair and member representatives to include and determine the time for premium distribution. Furthermore, the KPKSS disseminated the updated SOP to all members of the KPKSS RSPO certification group.

Corrective Action (filled by organization audited):

Based on the results of an audit of the RSPO Standard P&C certification by Independent Smallholders by the Agung Lestari Quality Certification Agency, it has been found that there is a discrepancy in indicator D.3.1 regarding how to use premiums and when to pay premiums. Based on these findings, the *Koperasi Pemasaran KTNA Sakai Sambayan* together with the ICS team prepared a follow-up plan in an effort to meet these discrepancies. The steps taken are as follows:

1. Conducted a meeting between the *Koperasi Pemasaran KTNA Sakai Sambayan*, the ICS team, the Group Chair and Members of the group representatives to discuss improvements to the premium distribution mechanism and agree on a timeframe for premium distribution to members. (The activity was carried out at the Almer Hotel, Baradatu District on May 13, 2023. Documents from the meeting are attached).
2. Updating the SOP document for the Premium Distribution Mechanism No. 45/SOP/KPKSS/2022, No. Revision 00 becomes SOP of Premium Distribution Mechanism No. 45/SOP/KPKSS/2023, No. Revision 01 is based on a joint decision of the *Koperasi Pemasaran KTNA Sakai Sambayan*, ICS, Group Leaders and Members of Group Representatives. (document attached).
3. Disseminating the latest Premium Distribution Mechanism SOP No. 45/SOP/KPKSS/2023 concerning how to distribute premiums and when to distribute premiums to all Certification members (313 smallholders) through Field School activities which have been carried out with the following details:
 - Ichwan S.'s group in Gunung Sari Village and Ujan Mas Village, Gunung Labuhan Sub District on May 14, 2023.
 - Agus Sulistiyono's group in Sukosari Village, Baradatu Sub District on May 15, 2023.
 - Suwardi Group in Bumi Rejo Village, Baradatu Sub District on May 15, 2023.
 - Mualim Group in Bengkulu Tengah Village, Gunung Labuhan Sub District on May 16, 2023.
 - Sutrisno Group in Bengkulu Raman Village, Gunung Labuhan Sub District on May 16, 2023.
 - Romadin Group in Cugah Village, Baradatu District on May 16, 2023.
 - M. Sayyid Group in Negeri Sungkai Village, Gunung Labuhan Sub District on May 18, 2023.
 - Sukiman Group in Gunung Katun Village, Baradatu Sub District on May 18, 2023.
 - Suratmin Group in Sari Jaya Village, Negara Batin Sub District on May 19, 2023.
 - Sunarto's group in Gisting Jaya Village, Negara Batin Sub District on May 19, 2023.
 - Sigit Ariyanto's group in Sari Jaya Village, Negara Batin Sub District on May 19, 2023.
 - Daryanto Group in Gisting Jaya Village, Negara Batin Sub District on May 19, 2023.
 - Wagiman group in Setia Negara Village, Negara Batin Sub District on May 20, 2023.

The Socialization of the Premium Sharing Mechanism was carried out directly by the Head of the *Koperasi Pemasaran KTNA Sakai Sambayan* accompanied by the ICS Team. The Field socialization activity also socialized all members of the RSPO certification on River Border Management. For members who cannot attend field socialization, representatives of the both of *Koperasi Pemasaran KTNA Sakai Sambayan* or ICS come directly to members' homes to provide outreach. (attached document).

Assessor Evaluation and Conclusion (filled by auditor):

The *Koperasi Pemasaran KTNA Sakai Sambayan* has sent proof of improvement in the form of:

- Minutes of changes to SOP documents for the mechanism for distributing RSPO certification premiums to members on 13 May 2023. From these activities there was an agreement and decision to accept the proposed document changes and socialize the results of the changes to members.
- Minutes of changes to the premium distribution mechanism for the *Koperasi Pemasaran KTNA Sakai Sambayan* on May 13, 2023 which explains that the premium distribution mechanism will be allocated for the needs of members' facilities and infrastructure, operational, social support, etc. Premium distribution will be carried out 6 months after the premium is received by the Cooperative.
- Attendance list for document changes and premium distribution mechanisms attended by 20 participants consisting of ICS

and all smallholder group leaders.

- SOP on the mechanics of premium distribution No. 45/SOP/KPKSS/2023 Revision 1 dated 13 May 2023 which has explained the distribution of premiums, allocation of funds, and timing of premium payments.
- Minutes of socialization of SOP on the mechanism for distributing premiums to members of smallholders groups carried out by ICS and the heads of smallholder groups which were carried out on 15-20 May 2023. As for groups that have carried out socialization such as the Agus Sulistiyono smallholder Group, Dariyanto smallholder Group, Ichwan smallholder Group, M. Sayyid smallholder Group, Mualim smallholder Group, Romadin smallholder Group, Sigit Ariyanto smallholder Group, Sukiman smallholder Group, Sunarto smallholder Group, Suratmin smallholder Group, Sutrisno smallholder Group, Suwardi smallholder Group, and Wagiman smallholder Group.
- Root cause analysis, Correction, and Corrective Action which have been analyzed by the *Koperasi Pemasaran KTNA Sakai Sambayan*.

Based on the proof of improvement sent by the *Koperasi Pemasaran KTNA Sakai Sambayan*, non-compliance with these indicators is declared Fulfilled and will be observed again in the next assessment.

Standard Ref. & Requirement	<p>4.7 Riparian buffer zones are identified and managed to ensure they are maintained and/or enhanced.</p> <p>E Group manager identifies riparian buffer zones within the group and smallholders commit to no new planting in riparian zones (reference 1.1.E, Annex 2).</p> <p>MS-A Smallholders complete training on and are aware of riparian buffer zone management, and the group has an action plan to maintain and/or enhance riparian buffer zones.</p> <p>MS-B Smallholders maintain and/or enhance riparian buffer zone areas.</p>		

Evidence observed (filled by auditor):

MS-B:

- The SOP for River Borders and Springs with number 28/SOP/KPKSS/2022 revision 01 issued on 25 February 2022 explains that smallholders are not allowed to apply fertilizers and pesticides within a distance of 20 m from river banks or springs.
- Weed Control SOP with code 10/SOP/KPKSS/2022 revision 01 issued on 25 February 2022 found that the details of spraying work were not carried out in areas including HCV.
- Results of interviews with ICS KPKSS and Sampling smallholders found that member smallholders had been given spraying and HCV training. Meanwhile, socialization with workers who work for smallholders has not been fully carried out by ICS.
- The results of field observations at the location of the KPKSS members with member ID 110256 in Baradatu District, it is known that there are spray marks on the oil palm tree disks on the smallholder's land by the river.
- The results of interviews with members of the KPKSS with member ID 110256 found that the spraying activities were carried out by workers who were paid by the smallholders.

Non-Conformance Description (filled by auditor):

Based on this evidence, KPKSS has not been able to show evidence that the planters maintain/or increase the buffer zone of the river area in accordance with the SOP they already have.

Root Cause Analysis (filled by organization audited):

Information has not yet been conveyed clearly to the workers who are paid by member smallholders about how to manage the river's riparian properly.

Correction (filled by organization audited):

The KTNA *Koperasi Pemasaran Sakai Sambayan* provides further guidance to member smallholder workers regarding the management of the River Rim in accordance with the Standard Operating Procedures owned by the Cooperative.

Corrective Action (filled by organization audited):

Based on the results of the Auditor's examination regarding the discovery of non-compliance with the RSPO Point 4.7 P&C Standard issued on 4 May 2023, the KTNA *Koperasi Pemasaran Sakai Sambayan* together with the Internal Control System (ICS) team prepared a follow-up plan and its application to close the discrepancy. The steps taken are as follows:

1. Conduct an internal meeting between the ICS team and the Management of the KTNA *Koperasi Pemasaran Sakai Sambayan* and develop the necessary follow-up plans (conducted on Thursday 4 May 2023 at the KTNA *Koperasi Pemasaran Sakai Sambayan* Office. Documents of the meeting results are attached).
2. Delivering a letter of warning to smallholder Member ID Number KSS110256 regarding non-conformances made in the management of riverbanks. The letter of reprimand was given directly by the Head of the Cooperative accompanied by the ICS Team and Group Leader Mr. Suwardi with the group code KSS110 on Saturday 6 May 2023. (Reprimand Letter document is attached).
3. Smallholders sign a statement that they will not repeat the action and are willing to carry out further guidance and supervision. (Document statement attached)
4. The Internal Control System (ICS) team together with the PKSS Cooperative visited the location of the plantation where there was a discrepancy to see the latest condition of the member's garden and provided directions to the owner of the garden on Sunday, May 7 2023.
5. Giving time to smallholder member ID Number KSS110256 to be able to improve the condition of the field in an effort to maintain and or improve the River Rim Area. Repair time is given for 8 days from 8 May – 15 May 2023.
6. Monitoring or supervising the location of the plantation owned by smallholder member ID Number KSS110256 for the repairs that were carried out on Tuesday 16 May 2023. (document attached).
7. The PKSS Cooperative together with the ICS Team provided socialization to smallholder workers about good management of the River Rim Area. Implementation of socialization on May 17, 2023. (document attached)

Assessor Evaluation and Conclusion (filled by auditor):

KPKSS shows identification of the root cause analysis that has been received, correction plans and corrective action plans that have been received. KPKSS shows evidence of improvement, as follows:

- List of attendees for the socialization of the spray workers in Bumirejo Village, Baradatu District, Way Kanan Regency on 17 May 2023, with 9 participants.
- Minutes of follow-up actions to correct non-compliance in point 4.7 of RSPO P&C standard independent smallholders 2020 KPKSS dated 04 May 2023, which was carried out by KPKSS and ICS.
- Letter of warning number 01/ST/KPKSS/V/2023 to KPKSS member smallholders with register number KSS110256 dated 05 May 2023 regarding non-compliance in river border management.
- Statement letter from smallholder's member of KPKSS register number KSS110256 regarding commitment to river riparian management according to RSPO 2020 principles and criteria, as well as willingness to provide guidance and monitoring of plantation management.
- Data form for checking HCV monitoring of smallholder who are members of the KPKSS register number KSS110256 dated 16 May 2023, which was carried out by ICS.
- Documentation of photos of activities to close inappropriate river bank management, such as:
 - KPKSS and ICS internal meeting on 04 May 2023.
 - Submission of a letter of warning to smallholder members of the KPKSS register number KSS110256 dated 06 May 2023.
 - Signing of the smallholder statement letter as a member of the KPKSS register number KSS110256 dated 06 May 2023.
 - Visit to a farm owned by a smallholder who is a member of the KPKSS register number KSS110256 on 07 May 2023.
 - Repair of smallholder field who are members of the KPKSS register number KSS110256.
 - Monitoring or supervision of smallholder members of the KPKSS register number KSS110256.
 - Outreach to smallholder workers regarding river bank management on 17 May 2023.

Based on the evidence shown, the discrepancy is declared to have been accepted and will be observed again in the next audit.

3.3.3. Opportunity for Improvement

No	Ref. Std.	Description
1	A 2.3	<p>KPKSS has program documents and realization of field school training for smallholders such as in the period October 2022, January 2023 and February 2023.</p> <p>However, during interviews with the 36 smallholders who were sampled, it was discovered that there were some smallholders who did not understand the RSPO independent smallholder standards in the smallholders' fields. The results of interviews with ICS and verification of socialization/field school documents revealed that smallholders who did not understand this had been socialized.</p> <p>From this, the KPKSS has the opportunity to ensure that the evaluation of the results of the outreach/field school that has been carried out for smallholders is understood so that all smallholders can understand it.</p>

3.3.4. Noteworthy Positive Components

No	Description
1	The commitment of members of the KTNA Sakai Sambayan Cooperative as an Independent Smallholder to carry out the principles of sustainable oil palm plantation management.
2	smallholders Enthusiasm for the Certification Process
3	The KTNA Sakai Sambayan Cooperative has personnel who are competent in their fields and are responsive enough to respond to requests for supporting documents and information
4	Presentation of Documents and good cooperation from the unit of certification
5	Do not use pesticides with active paraquat ingredients

3.4 Summary of Arising Issues from Public and Auditor Verification

Public Issues (Institution/ NGO/Community)	Auditor Verification
Head of Banjarsari Village <ul style="list-style-type: none"> The existence of the RSPO certification program for Smallholders is very helpful in increasing smallholders understanding in managing smallholders' oil palm plantations. Apart from that, the training activities carried out by the KPKSS can increase the cohesiveness of smallholders and can become a discussion forum for smallholders. The Village Party really appreciates the activities carried out by the KPKSS and the RSPO Program for smallholders. Smallholders land comes from generations and buying and selling and there are no land conflicts between smallholders and other communities. Land certificates for smallholders such as SHM (land title), SKT (land certificate, SKJB (purchase and sale certificate), etc. 	There are no issues that need further verification
Head of Bumirejo Village <ul style="list-style-type: none"> The RSPO certification program for Smallholders is very helpful in increasing farmers' understanding in managing smallholders' oil palm plantations. Training activities carried out by the KPKSS can increase knowledge which will have an impact on good agricultural practices thereby increasing efficiency and income The Village Party really appreciates the activities carried out by the KPKSS and the RSPO Program for Farmers. There are no land disputes in the village 	There are no issues that need further verification
Way Kanan Regency Plantation Service <ul style="list-style-type: none"> The Plantation Service really appreciates the RSPO KPKSS certification. The communication between the KPKSS management and the Plantation Office was quite good. Smallholders who are carrying out RSPO certification already have STD-B. There are no social issues and land disputes in the smallholders area. 	There are no issues that need further verification
Way Kanan District Environment Agency <ul style="list-style-type: none"> The Department of the Environment strongly supports the participation of smallholders in RSPO certification activities Cooperative managers are advised to manage B3 waste Cooperative managers are advised to always comply with environmental compliance obligations in accordance with the SPPL document 	There are no issues that need further verification
