2.0	ASSESSMENT PROCESS
2.1	Assessment Team
ASA-4	1. Hasiholan Sihombing (Lead Auditor). Indonesian citizen. Bachelor of Agriculture Majoring in Agronomy, Agriculture Faculty. He has working experienced for 7 (seven) years since 2009 as an Operational Staff in an Oil Palm Plantation Company in Indonesia. The training he has followed namely: Lead Auditor ISPO in 2016, RSPO P&C Lead Auditor Course in 2018, RSPO Supply Chain Certification Lead Auditor Course in 2020, SA 8000 Awareness in 2018, Quality Management Systems (ISO 9001:2015) in 2016, Environmental Management Systems (ISO 14001:2015) in 2017, OHS General Expert in 2013, OHSAS 18001:2007 in 2017, ISO 19011:2018 in 2019, ISO 17021:2011 and ISO 17065:2012 in 2016. During this audit, he assigned to verify legal aspect, land dispute, and SCCS. 2. Alfiany Sukmawati (Auditor). Indonesian Citizen. Bachelor of Public Health, major in Environmental Health, University of Indonesia. Has experience working in as HSE specialist for 5 years. Has attended training in AMDAL A & B, ISO 14001 auditor training, OSHAS, ISPO by LPP, RSPO by Checkmark, <i>Lead Auditor</i> ISO 9001:2015, Awareness ISO 17021, Awareness ISO 17065, Awareness ISO 9001, Awareness ISO 45001, and Awareness ISO 19011. Has participated in several simulations of audit activities related to the certification system for sustainable palm oil plantations with environmental aspects. During the audit, she verified OHS, environment, waste management, GHG and conservation aspect. 3. Iwan Perala (Auditor Trainee). Indonesian citizen, Bachelor of Forestry Department of Silviculture (Forest Cultivation) and Master of Science Soil and Environmental Biotechnology Study Program. He has experience as a research assistant in the environmental field at a Southeast Asian regional research institute. The training that has been attended is Lead Auditor ISO 9001:2015 QMS certified by IRCA, IHT ISO 9001:2015 QMS, ISO 14001:2015 EMS, ISO 17021:2015, ISO 19011:2018, ISO 45001:2018 awareness, HSE Plan awareness, CSMS awareness, ISO 50001:2018 EnMS awareness, ISCC awareness. In this assessment, we carried out an assessment of the Labor and Transparency aspects under the supervision of the Lead auditor. Curriculum vitae (CV) of the members and the assessment team is available at the PT Mutuagung Lestari Tbk office.
2.2	Assessment Methodology, Assessment Process and Locations of Assessment
2.2.1	Figure of person days to implement assessment
ASA-4	Number of auditors: 2 auditors and 1 auditor trainee Number of days for ASA-4 Onsite Audit: 5 days Number of working days for ASA-4 Onsite Audit: 10 Working days
2.2.2	Assessment Process
ASA-4	The assessment was conducted by measuring the sufficiency of implementation with the consistency done by the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu to the requirements of RSPO Independent Smallholder Standard, Indonesia National Interpretation for the Production of Sustainable Palm Oil 2020, endorsed by the RSPO Board of Governors on 14 February 2022 and RSPO Certification Systems for Principles & Criteria and RSPO Independent Smallholder Standard Endorsed by the RSPO Board of Governors on 12 November 2020. The assessment was conducted in three methods: (1) document review, aiming to observe the sufficiency of types or substances from required documents; (2) <i>interview</i>, aiming to obtain more detailed information and cross check the information; and (3) field observation, aiming to observe directly the sufficiency of implementation on site. Some opportunities for improvement of the results ASA-4 delivered by the MUTU auditor to the management unit and the results are the subject will be verified at the next assessment phase (RC). Improvement of findings from ASA-3 Assessment were observed by auditors at this ASA-4 assessment. All information obtained was recorded in Check List of PT Mutuagung Lestari Tbk (MUTU) and part of ASA-4. There are an additional 136 smallholders from the previous audit and there were 22 farmers who left from the previous audit. Therefore, this ASA-4 scope of APSKS Labuhanbatu consists of 1,279 smallholders with an area

	of 2,718.35 ha. The assessment program please find Appendix 2.
2.2.3	Locations of Assessment
ASA-4	This assessment was conducted with scope of certification 2.718,35 Ha and 1,279 smallholder members, the location of assessment was scattered on eight (8) villages. The sampling location consider the issue arose from the review documents and stakeholder's consultation that are fundamental and crucial. Based on that information, the auditor team decide to category in the high risk. Sampling method for MS B: $\sqrt{1,279 * 2} = 72$ members. Based on these calculations, the auditor determined that the sample taken was 72 members from 6 villages. On this assessment sample locations that visited and respondent that interviewed by team auditor are: Sumber Mulyo Village • APSKSLB – Budi Utomo (No. ID plot 1301). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Isma Al Haisudi (No. ID plot 992a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Sidik Suriyawan (No. ID plot 999). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Rahmat (No. ID plot 997a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Abbas Ritonga (No. ID plot 128a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Ribut (No. ID plot 131a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Ahmad Turian (No. ID plot 532c). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Mukino (No. ID plot 356b). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Suraji (No. ID plot 117). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Damianus Sidabutar (No. ID plot 534). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Suyono (No. ID plot 363d). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Suprapti (No. ID plot 1005a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. Tebing Linggahara Village • APSKSLB – Suwantak (No. ID plot 195). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Suroto (No. ID plot 246a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Salimin (No. ID plot 265a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Sopian (No. ID plot 679a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Lis Arifin (No. ID plot 255a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Jamil (No. ID plot 833a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Hasim Siregar (No. ID plot 344d). Field Observation and interview related to best practices,

	legality, environmental, and worker welfare. • APSKSLB – Abdullah Lubis (No. ID plot 615c). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Paiman (No. ID plot 653). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Ponijan (No. ID plot 656a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – M Cahyadi Lazuardi (No. ID plot 821b). Observasi dan wawancara lapangan terkait BMP, legalitas, lingkungan, dan kesejahteraan pekerja • APSKSLB – Parimin (No. ID plot 853d). Field Observation and interview related to best practices, legality, environmental, and worker welfare. Tebing Linggahara Baru Village • APSKSLB – Hengki Formansyah Sianipar (No. ID plot 247b). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Khaliza (No. ID plot 730). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Nurul Yakin (No. ID plot 1276a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Fitri Ani Harahap (No. ID plot 1279a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Ristani Pasaribu (No. ID plot 8). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Siti Ramsanah Lubis (No. ID plot 109a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Miswati (No. ID plot 248). Field Observation and interview related to harvesting activity, best practices, legality, environmental, and worker welfare. • APSKSLB – M Arifai Pasaribu (No. ID plot 934a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Rukiyah Br Rambe (No. ID plot 913). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Juniar Sinurat (No. ID plot 891). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Sariolo Siregar (No. ID plot 747a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Azhari Munthe (No. ID plot 944c). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • Harvesting Activity at Miswati's plot. Field Observation and interview related to harvesting activity, best practices, and worker welfare. Kampung Padang Village • APSKSLB – Ajid Pangestu (No. ID plot 1367b). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Jarno (No. ID plot 44). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Siti Hawa (No. ID plot 462). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Jumanto (No. ID plot 473b). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Nurhayati (No. ID plot 1354a). Field Observation and interview related to best practices, legality, environmental, and worker welfare. • APSKSLB – Elfi Zahara (No. ID plot 1188b). Field Observation and interview related to harvesting activity, best practices, legality, environmental, and worker welfare.

2.3.1	Summary of stakeholder consultation process.
	Consultation of stakeholders for APSKS Labuhanbatu was held by: • Public consultation meeting with government institution (Environmental Agency of Labuhanbatu Regency, Plantation Agency of Labuhanbatu Utara and Labuhanbatu Regency) on 14 September 2023. • Public consultation meeting with community (Batu Tunggal Village) on 14 September 2023. • Public consultation with NGOs (by email) such as WALHI, WWF, AMAN and Sawit Watch on 04 September 2023. Numbers of input from stakeholders were clarified by APSKS Labuhanbatu became as part of this report.
2.3.2	Stakeholder contacted
	Please find appendix 1
2.4	Determining Next Assessment
	The next visit (Re-certification) will be conducted 8 - 12 months after date of annual license.

3.0 ASSESSMENT FINDINGS
3.1 Summary of Assessment Report of the RSPO Certification

MUTUAGUNG LESTARI has conducted an assessment of Asosiasi Pekebun Swadaya Kelapa Sawit (APSKS) Labuhanbatu operation consisting of 1,165 smallholders.

During the assessment, there were nil (0) Nonconformity were assigned against Major Compliance Indicator and One (2) opportunity for improvement were identified.

MUTUAGUNG LESTARI found that APSKS Labuhanbatu complied with the requirements of RSPO Independent Smallholder Standard, Indonesia National Interpretation for the Production of Sustainable Palm Oil 2020, endorsed by the RSPO Board of Governors on 14 February 2022 and RSPO Certification Systems for Principles & Criteria and RSPO Independent Smallholder Standard, Endorsed by the RSPO Board of Governors on 12 November 2020.

Therefore, MUTUAGUNG LESTARI Recommends RSPO Certification of compliance is continued.

Ref Std.	VERIFICATION RESULT of MUTU-Certification	
A – ICS: Group Entity and Group Management Requirements		
A.1 The Group demonstrates that they are legally formed		
A.1.1 E, MS-A and MS-B The Association shows the latest Legal Entity Deed made by Notary Yan Sumekar, SH., M.Kn (Decree of the Minister of Law and Human Rights of the Republic of Indonesia No. AAHU-0318.AH.02.01 of 2010 dated January 27 2010) regarding Deed No. 01 concerning Confirmation of the Decision of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) Meeting on February 1 2020. The Association also pointed out the Decree of the Minister of Law and Human Rights No. AHU-0000182.AH.01.08 of 2023 concerning Approval of Changes to the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) which contains a decision to approve changes to the Articles of Association, as well as ratification of the new management structure. Based on the results of interviews with 72 members who were the sampling of the RSPO surveillance-4 audit activity, it is known that the selection of Group Managers has been carried out openly, freely and there is no element of coercion to choose so that members are very receptive to the results issued by the management at the time of election. Based on this explanation, it can be concluded that the association and its members have appointed a Group Manager openly, freely, accepted by all parties and well documented. The Association pointed out that Article 6 of the Articles of Association states that the highest sovereignty of the APSKSLB is in the hands of the members and is fully implemented by the Member Deliberation. Then the association showed the Minutes of the Extraordinary Member Meeting of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) on 9 January 2023 which decided that there would be changes to the management composition of the APSKSLB for the period 9 January 2023 – 28 July 2025 as follows: Manager Chairman: Syahrianto Deputy Chair: Safii Secretary: Suwito Treasurer: Sri Rahayu Supervisor Chairman: Rudman Simanjuntak Member: - Dedi Anju Bue Saragih - Sakaria Ginting		

A.1.2**E, MS-A and MS-B**

The Association shows the latest Legal Entity Deed made by Notary Yan Sumekar, SH., M.Kn (Decree of the Minister of Law and Human Rights of the Republic of Indonesia No. AAHU-0318.AH.02.01 of 2010 dated January 27 2010) regarding Deed No. 01 concerning Confirmation of the Decision of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) Meeting on February 1 2020. The Association also pointed out the Decree of the Minister of Law and Human Rights No. AHU-0000182.AH.01.08 of 2023 concerning Approval of Changes to the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) which contains a decision to approve changes to the Articles of Association, as well as ratification of the new management structure.

A.1.3**E, MS-A and MS-B**

The association showed the Bylaws document dated 9 January 2023 which explains in article 2 that the requirements to become a member of APSKSLB are:

Verse 1

- Palm Oil Farmers who are members of the Farmer Groups Assisted by IFC and Musimmas
- Approve and be able to implement the *AD ART* association's
- Able to actively implement the policies set by the Association

The also explains that members of the association resign because:

- Die
- At your own request in writing
- Dismissed

Dismissal is explained in article 4, including:

- Carrying out acts that are contrary to *AD ART*
- Deliberately not carrying out his obligations as a member of the association
- Committing acts that are detrimental to the association

Apart from that, the association also shows SOP/APSKSLB/002 concerning Member Entry and Exit which states that the member entry and exit process is grouped into:

- Leave voluntarily
- Exit due to the sale and purchase process or transfer of rights
- Exit due to sanctions or violations
- Exit if you die

The SOP also explains the procedures for re-entering members, including explaining that if they re-enter because they were expelled and were able to improve the situation or because of an error in decision making, then they will immediately be re-activated accompanied by a letter from the association.

The association showed a file in the name of Hengki Formansyah Sianipar signed on 20 August 2018, which contained:

- Personal data
- Association form
- RSPO Annex II statement letter
- Photocopy of land certificate
- The letter is not disputed
- STDB
- SPPL
- Certificate of domicile
- Land map
- etc

The association showed an example of a member acceptance file in the name of Hengki Formansyah Sianipar containing the following:

- Personal data
- Statement of willingness to participate in RSPO certification
- Land survey inspection letter
- Land map

A.1.4

E

All members of the association have signed and accepted the membership requirements, including 72 farmers in the sample. The association showed a file in the name of Hengki Formansyah Sianipar signed on 20 August 2018, which contained:

- Personal data
- Association form
- RSPO Annex II statement letter
- Photocopy of land certificate
- The letter is not disputed
- STDB
- SPPL
- Certificate of domicile
- Land map
- etc

The association showed that the member acceptance file in the name of Hengki Formansyah Sianipar contained the following:

- Personal data
- Statement of willingness to participate in RSPO certification
- Land survey inspection letter
- Land map

Apart from that, the association also showed that the file in the name of Hasim Siregar was signed on May 11, 2018, and Siti Hawa was signed on April 18 2023.

MS-A and MS-B.

Based on the results of the FGD with 72 farmer members of the association, it is known that these farmers have understood the membership requirements and accepted these requirements without any coercion.

	Status: Comply	
--	----------------	--

A.2 The Group Manager is responsible for managing the Group for certification

A.2.1

E:

The Association has a plan for operational activities of planters which is stated in the Work Plan of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) for 2021 - 2026 which was determined by the Chairman of the Association on 20 August 2021. This work plan has also been accompanied by a schedule for implementing and implementing the work plan. For example, the work plan is as follows:

- Management Meeting
- Improve the legality of association members' land certificates.
- GAP Training
- OHS socialization
- First Aid Box Monitoring
- Socialization of emergency response management
- HCV outreach
- Socialization of the benefits of PPE
- Training for workers in the plantation
- Socialization and monitoring of handling of riverside areas.
- Planting and monitoring Beneficial Plants.
- Fire fighting simulation

- Harvesting and transporting palm oil
- Shedding of fronds
- Monitoring for pests and diseases
- Monitoring Association Member Logbook
- Socialization of relevant regulations relating to RSPO and ISPO P&C.
- Internal Audit.

This activity program was prepared and approved on August 20, 2021, by the Chair of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) at the Annual Member Meeting. All members have a Logbook of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) where the logbook contains production data, sales data, fertilization data and worker income data for the current month. The book has been distributed since 2019 and has been effective since 2020 until now.

MS A, and MS-B

The Association displays meeting minutes every 2 months, including on July 18, 2023, attended by 37 members, including discussing:

- GAP training, financial literacy, gender, HCV, SKT, RSPO ISPO, no use of fire, environmental awareness etc
- Socialization of certified sprouts and seeds, policies that apply at APSKSLB
- RSPO explanation
- Distribution of PPE

The Association shows the Minutes of the Annual Member Meeting for the 2022 – 2023 Financial Year which contains evaluations and plans for the organization's performance, including:

- Accountability report 2022 – 2023
- Work plan for 2023 – 2024
- Work realization in 2023 – 2023 reached 99.92%, including meetings of core and association management, visits to offices, distribution of premiums, PPE training, data collection on new members
- Association work plan for the coming year.
- Core management meeting
- Visit of core management to the Village
- Visit from the Department of Agriculture
- Visit from the Environmental Service
- Addition of association members
- Distribution of premiums to members

A.2.2

E

The association has an APSKSLB management structure which also acts as ICS administrator for the period 9 January 2023 – 28 July 2025 as follows:

- Chairman
- Vice Chairman
- Secretary
- Treasurer
- Technical Division
- Document and Data Division
- Internal Audit Division
- Composting Unit Division
- Admin
- Supervisor
- Village Administrator

The results of the interview with the Association Chair revealed that the Association Chair was able to explain group certification and the certification requirements as well as the rules that must be carried out and obeyed by all members of the Association.

MS-A and MS-B.

The Association shows the Minutes of Regular Meetings every 2 months, including on July 18 2023, attended by 37 members,

including discussing:

- GAP training, financial literacy, gender, HCV, SKT, RSPO ISPO, no use of fire, environmental awareness etc
- Socialization of certified sprouts and seeds, policies that apply at APSKSLB
- RSPO explanation
- Distribution of PPE

The Association shows the Minutes of the Annual Member Meeting for the 2022 – 2023 Financial Year which contains evaluations and plans for the organization's performance, including:

- Accountability report 2022 – 2023
- Work plan for 2023 – 2024
- Work realization in 2023 – 2023 reached 99.92%, including meetings of core and association management, visits to offices, distribution of premiums, PPE training, data collection on new members
- Association work plan for the coming year.
- Core management meeting
- Visit of core management to the Village
- Visit from the Department of Agriculture
- Visit from the Environmental Service
- Addition of association members
- Premium distribution to members

A.2.3

E.

The Association shows training plans for 2023 – 2024, including:

- Good Agricultural Practices (GAP) training
- Socialization of the benefits of using PPE
- Socialization and monitoring of LB3 handling
- Training related to HCV and HCS
- Training regarding no use of fire in the land
- Pest and disease management training
- Socialization of regulations relating to PnC ISPO and RSPO

MS-A and MS-B

The Association provides proof of training for all members, for example:

- GAP, HCV and HCS training, pest and disease management, regulations relevant to PnC ISPO and RSPO date attended by 24 July 2023 attended by 87 members
- Training on GAP procedures and Pesticide Use for farmers and their workers on July 18, 2023, which was attended by 37 participants.

Socialization with association members, both new and old members, examples of socialization and training that have been carried out are:

- Tebing Linggahara Baru Village was held on June 27 2023 which was attended by 96 farmers.
- Pulo Padang Urban Village was held on June 22 2023 which was attended by 144 farmers.
- Lingga Tiga Village was held on June 22 2023 which was attended by 73 farmers.
- Tanjung Harapan Village was held on June 26 2023 which was attended by 161 farmers.
- Tebing Linggahara Village was held on June 23 2023 which was attended by 131 farmers.
- Kampung Padang Village was held on June 28 2023 which was attended by 116 farmers.
- Kampung Baru Village was held on June 28 2023 which was attended by 151 farmers.

Based on field observations, it is known that the farmers conveyed the things conveyed in the training, for example 12 sample farmers in Tebing Linggahara Baru Village no longer use pesticides and choose to use manual slashing. Then the farmer, Siti Ramsanah Lubis, did not spray pesticides on the river border with a limit of 20 meters.

Status: Comply

B – ICS: Policies and Management

B.1 The group Internal Control System contains documented policies and procedures for operational management.

B.1.1

E

The association showed the Bylaws document dated 9 January 2023 which explains in article 2 that the requirements to become a member of the APSKSLB are:

Verse 1

- Palm Oil Farmers who are members of the Farmer Groups Assisted by IFC and Musimmas
- Approve and be able to implement the association's AD and ART
- Able to actively implement the policies set by the Association

The ART also explains that members of the association resign because:

- Die
- At your own request in writing
- Dismissed

Dismissal is explained in article 4, including:

- Carrying out acts that are contrary to AD ART
- Deliberately not carrying out his obligations as a member of the association
- Committing acts that are detrimental to the association

Apart from that, the association also shows SOP/APSKSLB/002 concerning Member Entry and Exit which states that the member entry and exit process is grouped into:

- Leave voluntarily
- Exit due to the sale and purchase process or transfer of rights
- Exit due to sanctions or violations
- Exit if you die

The SOP also explains the procedures for re-entering members, including explaining that if they re-enter because they were expelled and were able to improve the situation or because of an error in decision making, then they will immediately be re-activated accompanied by a letter from the association.

The association shows that the member acceptance file in the name of Lis Arifin contains:

- Personal data
- Statement of willingness to participate in RSPO certification
- Land survey inspection letter
- Land map

The Association has an APSKSLB management structure which also acts as ICS administrator for the period 9 January 2023 – 28 July 2025 as follows:

- Chairman
- Vice Chairman
- Secretary
- Treasurer
- Technical Division
- Document and Data Division
- Internal Audit Division
- Composting Unit Division
- Admin
- Watchdog
- Village Administrator

The association also has procedures for expelling members and sanctions for members who do not comply with the association's

rules as stated in the SOP for member warnings and sanctions No. SOP/PSKSLB/003 dated January 9, 2019.

Apart from that, the Association also has procedures for carrying out internal audits which are stated in the internal audit implementation procedures with No. SOP/PSKSLB/007 on January 9, 2019, which explains that internal audits are carried out once a year. The Internal Audit mechanism is regulated in the Internal Audit Procedure (SOP/PSKSLB/007) dated January 9, 2019. The purpose of this procedure is as a guideline for carrying out internal audits. The procedure explains internal audit planning, internal audit team, and internal audit methodology. The procedure also states that an internal audit is carried out at least once a year for each member. Regarding the competence of the internal audit team, among others (1) there is no conflict of interest (2) professional (3) objective, (4) able to work together with all parties. Furthermore, the association has carried out a risk management audit where there are 10 coverage points and 132 points (clauses) that must be fulfilled by farmers.

MS-A and MS-B

The association carries out internal audit activities in order to implement sustainable business improvements/improvements for all 1279 members of the association. Internal audit activities were carried out in January - August 2023 by 19 association internal auditors, there were 5 discrepancies related to PBB payments, NPWP processing, STDB processing, SPPL processing, and contracts with workers. All non-conformities have been fulfilled before carrying out the external audit. An example of evidence shown to the auditor is the minutes of the meeting on July 18, 2023, in Kampung Padang which contains information on outreach to farmers to immediately take care of PBB, NPWP, SPPL, STDB and contracts with workers. Based on the sample, there were farmers who had not made a work contract with their workers at the time of the internal audit, for example in the name of Warsanai (farmer) and Sandra Kirana (worker), at the time of the external audit both parties had a work agreement.

B.1.2

E, MS-A and MS-B.

APSKSLB has basic information, plantation information, production data, legal documents and a signed Grower's Statement available to group managers stored at the APSKSLB office. Basic documents consist of member names, plantation information, production data and legal documents (land certificate, STDB & SPPL).

The Certification Unit can show documentation of member requirements, for example the 72 farmers sampled in the document are stored in one folder consisting of

The membership registration requirements form consists of:

Member Form (Name, DoB, identity, address and telephone number, data on plantation area, year of planting, and other information) along with self-declaration consciously and without coercion from any party:

- Join and become a member of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) and be willing to follow all the rules that apply to the Association.
- Willing to provide truthful information to the Association.
- Willing to take part in training and direction from the association.
- Willing to improve good practices standards and pay attention to social and environmental rules.

Attachment Photocopy of the document:

- Identity card
- Family card
- Land Certificate
- Land plot map
- SPPL
- STDB

Letter of Willingness to take Certification

Declare that we are willing to take part in the RSPO/ISPO certification carried out by the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB), and wholeheartedly will make this activity a success, for that we are also willing.

- Improving oil palm practices methods properly according to the standards set in the RSPO/ISPO certification.
- Willing to obey and comply with applicable rules and regulations.
- Willing to take part in training and direction from farmer groups and associations.
- Providing plantation data information to farmer groups and associations.

• Willing to be assessed by the appointed party in the RSPO/ISPO certification process. • Willing to continuously improve the field for mutual progress. The association showed an example file in the name of Hengki Formansyah Sianipar which was signed on 20 August 2018; Hasim Siregar signed on 11 May 2018; Siti Hawa was signed on April 18, 2023 The form has been signed by the individual farmer and there is a note that the Association has decided to accept the farmer concerned as a member. Apart from that, the Association can also show several examples of Association member cards which explain the Name, Member Number, Position and address. Based on verification of the Association member list documents, it is known that the Farmer is truly a member of the Association, and all forms are stored at the Association Office.		
	Status: Comply	
C – ICS: Group business planning		
C.1 The group has a group Business Plan prepared with the participation and contributions of group members.		
C.1.1 E Consistent with previous assessments, APSKS Labuhanbatu has a group business plan contained in the Business Plan for the current year and the following year which is divided into 3 plans, namely Expenditure Budget Plan, FFB Production Projection Plan, and Land Expansion Plan. The Business Plan is made by the Group Manager and agreed upon by all management and members of the association. For 2023, the association does not have plans to expand the number of new members, but only to expand the number of registered members. Then the association also has plans to develop production through a composting unit. MS A The business plan is reviewed every year at the end of the year after the APSKS Labuhanbatu Annual Member Meeting, and all members are included in the evaluation. The results of the last evaluation were on June 19, 2023, which was attended by 257 members with an agenda of financial budget accountability reports, work realization for 2022-2023, as a reference for plans for 2024. Apart from this discussion, there are several topics discussed in the annual review such as membership data, identification training, premium payment prices, FFB production, problems, and farmer contributions. MS B The stability of the APSKS Labuhanbatu business can be seen from the positive income balance every year, which comes from several business fields. For example, the association has benefited from the sale of RSPO credits starting from 2020-2023 which are used to manage the association. So, it can be concluded that APSKS Labuhanbatu has the ability to support the sustainability of cooperatives independently. Smallholder Groups practicing fair and transparent decision making and governance through the implementation of the Annual Member Meeting which is attended by all members.		
	Status: Comply	
C.2 The ICS of the group is integrated with the Group's Management Plan.		
C.2.1 E The group managers have an annual group training plan, which includes the RSPO Independent Smallholder Standard, group management (including group objectives and structure, and associated certification procedures and processes) and other topics as set out in the Independent Smallholders Standard. The training plan is included in the APSKS Labuhanbatu Work Program for the period 2024 where the plan consists of 36 training/socialization activities aimed at administrators and members. The training plan includes training on GAP (Good Agriculture Procedure), P&C RSPO Independent Smallholder Standard, OHS, social gender, and so on. Association can show documentation of the realization of training from 2022, some of the trainings that have been implemented, for		

example are;

- Training related to Good Agriculture Procedures (pruning, harvesting and transporting FFB, monitoring pests and diseases, fertilization, manual maintaining of circle, harvest roads and collecting point, replanting)
- OHS training and first aid kit
- Emergency Response Training and fire simulation
- HCV and HCS, including riparian management
- Socialization of the use of PPE
- Hazardous Waste Handling
- Prohibition using of fire in the land
- etc

The association also has a joint program with SNV through a regenerative agriculture program with the implementation of sustainable cultivation, for example through a composting program. Through this program, it is hoped that technically farmers' land will become more productive without destroying the land (minimizing the use of chemicals) and empowering farmers' economy in the long term program.

MS-A

APSKS Labuhanbatu can show evidence of periodic monitoring of the plans that have been carried out in management and monitoring reports, from recording production data, training, sales and other implementation according to the plans that have been made. The plans made have been reviewed periodically in the management review (done after an internal audit) or in the annual APSKS Labuhanbatu membership, which was last carried out in June 2023.

MS-B

As a form of continuous improvement and group compliance with Independent Smallholder standards to ensure all members follow and implement existing standards, the association also internally conducted an audit, which was carried out in January-August 2023 by an internal auditor.

Based on documents verifications and interviews with management it was known if all members had been an audit. Based on documents verifications and interviews with management it was known if all members had been audited, there were 1,279 members (100%) with accomplishment 100% based on the audit checklist form.

Status: Comply

D – ICS: Group Trading System for Certified Volumes

D.1 The group has a procedure and system in place for the tracking of FFB.

D.1.1

E

APSKSLB has documentation of production and sales of FFB for each member for the period August 2022 to July 2023. The selling method used by smallholders is to sell FFB to sub-agents/agents who will later sell to Siringo-ringo POM. The Association sells certified products through the credit sales method at palm trace. From palm trace data, it is known that APSKSLB has sold 2,893 MT of CSPO and 684 MT of CSPKO during the license period.

MS-A and MS-B.

Annual production can be shown by the group manager, the production document collection system is carried out from smallholders periodically recording the amount of harvest adjusted to the weighing ticket by the agent or sub-agent. The data is then compiled by the village administrator and from the village administrator the data is then submitted to the core management to be tabulated and recapitulated.

Based on an interview with the Chairperson of APSKSLB, it was informed that the association only sells RSPO-certified products through credit in the palm trace, while certified FFB is only sold conventionally to agents who buy FFB from each smallholder member of the association.

Status: Comply

D.2 The group documents and implements a system for the tracking of FFB.		
D.2.1 E - MS-A and MS-B The results of the document review show that the group manager has managed FFB production and sales data for each smallholder for the period August 2022 to July 2023. In addition, the APSKSLB Manager has also attended training on the book & claim method from the RSPO, namely on August 25, 2021.		
	Status: Comply	
D.3 The group has a procedure and system for premium distribution.		
D.3.1 E The Association has established the SOP Premium Payment (SOP/APSKS-LB/044) dated 09 August 2020, which aims to be a guide/guideline that can be used in distribution of premium payment from the sale of certified FFB credits through a Book and claims Models to association members. In the procedure it is explained that: • The entire amount of proceeds from credit sales / volume of certified FFB is notified to association members. • The results from the sale of certified FFB volumes will be discussed first between the management and association members. • The total premium to be distributed to all members is determined through a discussion on the results of the sale of certified FFB volume. • Premium payments are given to members fairly and equitably. • The amount/basic value of premium payments to members is determined based on the total premium cost to members divided by the total land area of the planters, then multiplied by the area of each registered member's area. • The time of premium payment to members is determined based on the agreed schedule agreement. • Premiums paid to each member are recorded at each stage and paid on time and well received by members. • Every premium distribution to all members will be documented. The use of premiums has been agreed based on the annual meeting of associations on 22 June 2023. Based on the meeting, the proceeds from product sales will be used for the association's operational activities, training, administration and also for distribution to members. The results of the meeting also agreed that each member will receive a subsidy / benefit for every Ha of farmer's land. MS-A & MS-B In accordance with management meeting on 22 June 2023, each member will receive a subsidy for every Ha of farmer's land. The association can present evidence of distribution of payment price in every village, for instance: • Distribution of premium price in Pulo Padang Urban Village on 22 June 2023 for 142 farmers • Distribution of premium price in Kampung Padang Village on 28 June 2023 for 116 farmers • Distribution of premium price in Sumber Mulyo Village on 26 June 2023 for 110 farmers Based on interview with farmers members (72 farmers sampling) during field observation it was known if the distribution of premium price has been accordance with agreements all parties and the payment conducted in timely manners with fair dan transparent.		
	Status: Comply	

3.2.2 The Principle Criteria and Indicators that are applicable to both smallholders (as individual group members) and group managers

Ref Std.	VERIFICATION RESULT of MUTU-Certification	
PRINCIPLE 1: OPTIMISE PRODUCTIVITY, EFFICIENCY, POSITIVE IMPACTS AND RESILIENCE		
1.1		
Smallholders establish a legal entity which has organizational capacity to comply with the RSPO Independent Smallholder Standard.		
E Consistent with previous assessments, smallholders already have an institution in participating in RSPO certification, namely the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu, and has been approved in accordance with the Decree of the Minister of Law and Human Rights of the Republic of Indonesia Number: AHU-0000688.AH.01.08 year of 2020 on July 30, 2020 concerning Approval of Changes in Legal Entity of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB). The Association can also show the latest Legal Entity Deed made by Notary Yan Sumekar (SK Minister of Law and Human Rights of the Republic of Indonesia No. AAHU-0318.AH.02.01 Year 2010 dated January 27, 2010) related to Deed No. 36 concerning the Affirmation of the Decision of the Meeting of Members of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) on July 28, 2020. The deed has been ratified by the Ministry of Law and Human Rights in accordance with the Decree of the Minister of Law and Human Rights No. 36. AHU-0000688.AH.01.08 Year 2020 concerning Approval of Changes in Legal Entity of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) dated July 30, 2020. MS-A The membership registration requirements form consists of Member Form (Name, DoB, Identity Number, address and telephone number, data on plantation area, year of planting, and other information) along with self-declaration consciously and without coercion from any party. Farmers declare that they are willing to take part in the RSPO/ISPO certification carried out by the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu with improving oil palm methods properly according to the standards set in the RSPO/ISPO certification (Good Agriculture Practice), with commitments undertaken in the form of; • Willing to obey and comply with applicable rules and regulations. • Willing to take part in training and direction from farmer groups and associations. • Providing plantation data information to farmer groups and associations. • Willing to be assessed by the appointed party in the RSPO/ISPO certification process. • Willing to continuously improve the field for mutual progress. For example, farmers with new member registration, namely Miskun, joined on December 3, 2022, with ID No. 644 from Tebing Linggahara Village. The member statement form has been signed by the individual farmer and there is a note that the Association has decided to accept the farmer concerned as a member. Apart from that, the Association can also show several examples of Association member cards which explain the Name, Member Number, Position and address. Based on verification of the Association member list documents, it is known that the Farmer is truly a member of the Association, and all forms are stored at the Association Office. All farmers have also received socialization about the mechanism for determining palm oil prices, financial management, and best practices, during initial registration, and periodically delivered at the annual member meeting, for example held on June 19 2023 which was attended by association members. MS-B APSKS Labuhanbatu also has an Internal Control System in which a management structure has been formed in each village from the members. The association also has procedures regarding decision making, duties and responsibilities of management which are contained in document No: SOP/APSKSLB/025 dated January 9, 2019. This procedure explains the duties and responsibilities of each association administrator so that the flow of decision making can be clear, fair and transparent. APSKSLB has also prepared estimates of farmer income for the next 4 years. Based on these income estimates, it is shown that		

every year farmers' production increases and income also increase, so it is hoped that the financial management of farmers and associations can run sustainably.

Status: Comply

1.2

Smallholders have the capacity to effectively manage their farm.

E

-

MS-A

Smallholder has completed the training that can be proved by records of good agricultural practices training, including those on plantation operations, monitoring and planning, for example:

- Tebing Linggahara Baru Village was held on June 27, 2023, which was attended by 96 farmers.
- Pulo Padang Urban Village was held on June 22, 2023, which was attended by 144 farmers.
- Lingga Tiga Village was held on June 22, 2023, which was attended by 73 farmers.
- Tanjung Harapan Village was held on June 26, 2023, which was attended by 161 farmers.
- Tebing Linggahara Village was held on June 23, 2023, which was attended by 131 farmers.
- Kampung Padang Village was held on June 28, 2023, which was attended by 116 farmers.
- Kampung Baru Village was held on June 28, 2023, which was attended by 151 farmers.
- Sumber Mulyo Village was held on June 26, 2023, which was attended by 110 farmers.

Based on interviews with farmers sample villages, it was concluded that since joining the APSKSLB, they had additional insight in terms of good oil palm plantation management, recording and storage of harvests to plant maintenance aimed at increasing production.

MS - B

Association smallholders have a record of harvesting that is included in the logbook of member farmers' plantation records. In the logbook, farmers record the results of harvesting carried out such as harvest date, FFB yields harvested, FFB prices, income, and expenses for harvesting activities. For example, the auditor verified the logbook of member farmers' plantation records on behalf of Sidik Suriawan, from Sumber Mulyo Village. The results of the verification were that the farmer harvested on August 23, 2023, with a FFB weight of 625 Kg with a FFB price of IDR 1,760 with a gross income of IDR 1,100,000 and expenditure of IDR 125,000 (for harvest costs).

Status: Comply

1.3

Smallholders implement good agricultural practices (GAP) on their farms.

E

Consistent with the previous period's assessment, each member already have an institution to participate in RSPO certification, namely Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu and has received approval in accordance with the Decree of the Minister of Law and Human Rights of the Republic of Indonesia Number: AHU-0000688.AH.01.08.Year 2020 on July 30, 2020, concerning Approval of Changes to the Legal Entity of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB).

The Association can also show the latest Legal Entity Deed made by Notary Yan Sumekar (Decree of the Minister of Law and Human Rights of the Republic of Indonesia No. AAHU-0318.AH.02.01 of 2010 dated 27 January 2010) regarding Deed No. 36 concerning Confirmation of the Decision of the Member Meeting of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) dated July 28, 2020. This deed has been ratified by the Ministry of Law and Human Rights in accordance with the Decree of the Minister of Law and Human Rights No. AHU-0000688.AH.01.08.Year 2020 concerning Approval of Changes to the Legal Entity of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) dated July 30, 2020.

The membership registration requirements form consists of Member Form (Name, DoB, Identity Number, address and telephone number, data on plantation area, year of planting, and other information) along with self-declaration consciously and without coercion from any party. Farmers declare that they are willing to take part in the RSPO/ISPO certification carried out by the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu with improving oil palm methods properly according to the standards set in the RSPO/ISPO

certification (Good Agriculture Practice), with commitments undertaken in the form of;

- Willing to obey and comply with applicable rules and regulations.
- Willing to take part in training and direction from farmer groups and associations.
- Providing plantation data information to farmer groups and associations.
- Willing to be assessed by the appointed party in the RSPO/ISPO certification process.
- Willing to continuously improve the field for mutual progress.

For example, farmers with new member registration, namely Miskun, joined on December 3, 2022, with ID No. 644 from Tebing Linggahara Village. The member statement form has been signed by the individual farmer and there is a note that the Association has decided to accept the farmer concerned as a member. Apart from that, the Association can also show several examples of Association member cards which explain the Name, Member Number, Position and address. Based on verification of the Association member list documents, it is known that the Farmer is truly a member of the Association, and all forms are stored at the Association Office.

MS-A

Smallholder has completed the training that can be proved by records on good agricultural practices including operations, monitoring and planning of plantation businesses, some examples of which are:

- Tebing Linggahara Baru Village was held on June 27 2023 which was attended by 96 farmers.
- Pulo Padang Urban Village was held on June 22 2023 which was attended by 144 farmers.
- Lingga Tiga Village was held on June 22 2023 which was attended by 73 farmers.
- Tanjung Harapan Village was held on June 26 2023 which was attended by 161 farmers.
- Tebing Linggahara Village was held on June 23 2023 which was attended by 131 farmers.
- Kampung Padang Village was held on June 28 2023 which was attended by 116 farmers.
- Kampung Baru Village was held on June 28 2023 which was attended by 151 farmers.
- Sumber Mulyo Village was held on June 26 2023 which was attended by 110 farmers.

Based on interviews with 72 farmers from 6 sample villages, it was concluded that farmers since joining APSKSLB have additional insight into good management of oil palm plantations, recording and storing harvests and maintaining plants with the aim of increasing production.

MS-B

The Farmer Association has recorded harvesting implementation which is included in the logbook of member farmers' records. In the logbook, farmers record the results of harvesting activities such as harvest date, FFB yields harvested, FFB prices, income and expenses for harvesting activities. For example, the auditor verified the logbook records of a member farmers in the name of Sidik Suriawan, from Sumber Mulyo Village. The results of the verification were that the farmer harvested on August 23, 2023, with a FFB weight of 625 Kg with a FFB price of IDR 1,760 with a gross income of IDR 1,100,000 and expenditure of IDR 125,000 (for harvest costs).

Status: Comply

PRINCIPLE 2: ENSURE LEGALITY, RESPECT FOR LAND RIGHTS AND COMMUNITY WELLBEING

2.1

Smallholders have legal or customary rights to use the land in accordance with national and local laws and customary practices.

E and MS-A

APSKSLB has complete information regarding the coordinate points or maps of land plots for each member (a list of coordinate points for each farmer's land plot is in Appendix 3). Then every member who will become a member of APSKSLB is required to have legal documents that are valid and recognized by Indonesian regulations. The legality documents for farmers who are members of the Asosiasi Petani Swadaya Kelapa Sawit Labuhanbatu consist of a Certificate of Compensation, Certificate of Ownership, Land Ownership Letter, Grant Letter, Village Letter, and Inheritance Letter.

Based on document review and interviews with the Head of the Association, it is known that there are still 211 farmers (357 plots of land) in Labuhanbatu Utara Regency who do not yet have STDB. The association has made positive efforts to process the issuance

of the STBD to the relevant agency, but the agency has not yet issued the STDB until this audit has been carried out. Therefore, associations are encouraged to ensure that the progress in processing STDB documents always runs positively. OFI

MS-B

APSKSLB has a land boundary marking procedure with document number SOP/APSKSLB/043 dated March 3, 2020, and has been socialized to all association members. Based on the results of field visits and interviews with 72 sample farmers from 6 sample villages, it is known that each plot of land owned by farmers has been marked with boundaries, either in the form of iron or Parallon, which is coloured paint, and each farmer already knows the boundaries of his plot of land.

Status: Comply

2.2

Smallholders have not acquired lands from indigenous peoples, local communities or other users without their free, prior and informed consent (FPIC), based on a simplified FPIC approach.

E, MS-A, MS-B

Based on the results of the document review, interviews with APSKSLB management, interviews with 72 sample farmers and the Labuhanbatu Regency Agriculture Agency, it is known that most of the land acquisition is hereditary, and some are the result of buying and selling. Information regarding land acquisition can also be seen in the Land Certificate or the Member's Ownership Certificate. Every sale and purchase of land is always based on the agreement of both parties witnessed by the parties including village officials.

Status: Comply

2.3

The right to use the land is not disputed by indigenous peoples, local communities or other users.

E

Based on the results of document verification, interviews with association administrators and member smallholders during the field visit, it was found that all members had signed and acknowledged the membership requirements. All members before joining the association need to complete the requirements as prospective members, including photocopy of ID card, proof of land ownership, family identity card and a statement of commitment to RSPO Certification, including:

- Not clearing or acquiring land from indigenous peoples, local communities, or other users without their free, prior, and informed consent (FPIC), based on a simplified approach to FPIC.
- Resolve existing disputes.

The completeness of the document requirements for members has been checked and evaluated prior to joining and documented in the master list of smallholder data which explains the completeness of member data. The association can show several smallholder statements/statements signed by all sampled members. The verification results show that all members who join the Association are not in the stage of land disputes, the members can also explain related to the rights to ownership of the land they manage. The association can also ensure that all members who wish to apply for membership will be thoroughly verified regarding the status and legality of the land to be registered.

The Association can also show documents regarding the history of land acquisition listed in the Statement of History of Land Control and Utilization for all members of the Association, for example, a Statement Letter in the name of Agus Salim is shown. This document also explains the land boundaries, the land is controlled individually. individual, no land disputes, etc. This Statement Letter has been signed by the Land Owner and Association Chair and has been acknowledged by the Village Head.

MS-A, MS-B

Based on the results of document studies, interviews with APSKSLB administrators, interviews with 72 sample smallholders and the Labuhanbatu District Agriculture Agency, it is known that there is no land dispute in association member land and most of the land acquisition is hereditary, and others are the result of buying and selling. Information regarding land acquisition can also be seen in the Land Certificate or the Member's Ownership Certificate. Every sale and purchase of land is always based on the agreement of both parties witnessed by the parties including village officials.

Status: Comply

2.4

Smallholder plots are located outside of areas classified as national parks or protected areas, as defined by national, regional or local law or as specified in National Interpretations.

E, MS-A, MS-B

The association has overlaid the land of the association's member smallholders with a map of the status of the area of Sumatera Utara Province, RTRWP Map of Sumatera Utara, PIPPIB Map, and other maps such as:

1. RTRWP North Sumatra Province 2017-2037
2. Functional Status Map/Region of North Sumatra Province SK 579/MenHut-II/2014
3. Peat Moratorium Map in PIPPIB 2023 Period 1.

From the results of the overlay, it is known that the APSKSLB smallholder's area is not located in the Forest Area, either Protected Forest Area, Production Forest, Conversion Production Forest, or Conservation area. This is in line with the results of the overlay on the RTRW map of Sumatera Utara Province 2017-2037 where in the spatial plan for the Sumatera Utara Province, the distribution of smallholders' areas is located in areas designated for plantations/agriculture. Likewise, from the results of the overlay with the 2023 PIPPIB map for period 1, it is known that none of the smallholders' areas are in the Peat area.

Status: Comply

2.5

For new plantings, smallholders do not clear or acquire any land without obtaining the free, prior and informed consent (FPIC), of indigenous people and/ or local communities and/ or other users, based on a simplified FPIC approach.

Do any smallholders within the group have plans for new plantings of oil palm? If none, SKIP

E

From interviews with 72 sampling farmers and association administrators, it is known that there are no farmers who plan to open new land. The addition of blocks or the addition of new farmers does not come from new planting areas but through buying and selling land or other processes.

Document verification, interviews with association administrators and farmers sample during field visits, it was found that all members had signed and acknowledged the membership requirements. All members before joining the association need to complete the requirements as prospective members, including photocopy of ID card, proof of land ownership, family identity card and a statement of commitment to RSPO Certification as referred to in attachment 2 are:

- Not clearing or acquiring land from indigenous peoples, local communities, or other users without their free, prior, and informed consent (FPIC), based on a simplified FPIC approach.
- No new planting or no expansion of existing farms in primary forests, HCV areas, HCS forests, in riparian areas, or on steep slopes (more than 25 degrees or as in National Interpretation)
- Protect HCVs and HCS forests through the precautionary practices approach.
- No new planting on peat and replanting on peat only in areas with low risk of flooding and saline intrusion.

MS-A & MS-B

Based on document review, interviews, and field observation, there is no new planting conducted by smallholders.

Status: Comply

PRINCIPLE #3 RESPECT HUMAN RIGHTS, INCLUDING WORKERS' RIGHTS AND CONDITIONS

3.1

There is no use of forced labour.

E.

All association members have signed a commitment not to use forced labour practices, for example the 72 farmers sampled. One name that is an example is Hengki Formansyah Sianipar, which was signed on August 20, 2018.

The association also shows a list of workers working in farmers' field as many as 1142 workers who work for 1279 farmers on a rotational basis consisting of harvesters, fertilizers, sprayers, slashers, drivers, loaders and shoneers. The document explains the name, age of the worker, date of birth, place of birth, address, etc. Based on the study of these documents and FGDs with farmers, it is known that the workers come from areas around the farmers' field.

MS-A

The association showed an example of the minutes of the meeting on July 24, 2023, which included discussions regarding the prohibition of forced labour practices, bonded labour, forced overtime work, and the prohibition on withholding documents which was attended by 87 farmer members of the association.

MS-B

Based on interviews with harvest workers with the initials Ji, Ju, Se, As, Yu, Su, and Fa, they stated that there were no forced labour practices of any kind carried out by farmers on the land they worked on. Workers also understand that forced labour practices are not permitted on the plantation.

Status: Comply

3.2

Children are not employed or exploited. Work by children is acceptable on family farms, under adult supervision and when not interfering with education programmes. Children are not exposed to hazardous working conditions.

E.

All members of the association have signed a commitment not to use child labor, for example the 72 farmers sampled. One name that is an example is Hengki Formansyah Sianipar, which was signed on August 20, 2018.

The association also showed a list of 1142 workers working in farmers' field. The document explains the name, age of the worker, date of birth, place of birth, etc. Based on a review of these documents and FGDs with farmers, it is known that workers who are allowed to work are at least 18 years old. Then, based on the Work Agreement Letter and the worker's identity card, for example the harvest worker's initials Ji, Ju, Se, As, Yu, Su, and Fa, it is known that the worker is more than 18 years old.

MS-A

The association shows the minutes of the meeting on July 24, 2023, which included discussions regarding the prohibition on the use of underage labor which was attended by 87 farmer members of the association

MS-B

Based on interviews with harvest workers with the initials Ji, Ju, Se, As, Yu, Su, and Fa, they stated that there was no child labor in farmers' field. Workers also understand that child labor is not permitted on the farm.

Based on the results of the FGD with 72 sample farmers, it was found that farmers had a good understanding of the prohibition on the use of child labor and stated that they had received socialization regarding this prohibition.

Status: Comply

3.3

Workers' pay complies with minimum legal requirements, mandatory industry standards as defined by national law or collective bargaining, whichever takes priority in local regulations.

Are there workers on the farm? If no, SKIP

E.

All association members have signed a commitment to provide workers' wages in accordance with the minimum requirements in applicable law, for example the 72 farmers sampled. One name that is an example is Hengki Formansyah Sianipar, which was signed on August 20 2018.

MS-A & MS-B

Based on interviews with harvest workers with the initials Ji, Ju, Se, As, Yu, and Fa, they stated that wages were given according to the agreement between the workers and farmers. The association shows a Work Agreement Letter which explains the type of work and wages received by workers, for example on behalf of Selamat (harvest worker) who works for farmers on behalf of Santiman with a wage of IDR 200/kg. Then the association showed proof of payment of APSKSLB wages in Selamat's name, showing the amount of payment in accordance with the contract. For example, on August 21 2023, with a harvest of 2335 kg, you will be paid a wage of IDR. 467,000.

Then on behalf of Yusman and Fadlah with wages of IDR 250/kg (harvest) and IDR 6000/sprayer (spray). Then the association showed proof of payment of APSKSLB wages in the names of Yusman and Fadlah which showed the amount of payment for spraying work in accordance with the contract. For example, in May 2023 there will be 47 sprayers, paid a wage of IDR. 282,000.

Based on the results of the FGD with 72 sample farmers, it is known that the prevailing wages for workers in this area are as follows:

- Harvest: IDR 150 – 250/kg
- Fertilizer: IDR 20,000/sack
- Spray: IDR 6000/sprayer
- Tripe: IDR 400,000 – 450,000/ha

These wages are influenced by the distance from the plantation to the place where the produce is collected and the condition of the roads. Farmers also understand that wages cannot be lower than the minimum wage, which is IDR. 3,117,000/month or IDR. 148,428/day

The Association also showed decision letter no. SK/008/APSLS-LB/II/2019 which was signed by the head of the association in January 2019 concerning Wage Payments which explains that:

- Associations and association members in paying wages to workers refer to the district minimum wage standards that have been set
- If wages are lower than the provisions, it must be explained by the working hour conversion system, or special situations

	Status: Comply	
--	----------------	--

3.4

Workers understand their rights and freedom to file a complaint to group manager or relevant third parties, including RSPO.

Are there workers on the farm? If no, SKIP

E.

All association members have signed a commitment to respect workers' rights to submit complaints or grievances, for example the 72 farmers sampled. One name that is an example is Hengki Formansyah Sianipar, which was signed on August 20, 2018.

MS-A

The association showed an example of the minutes of the meeting on July 24, 2023, which included discussing the recapitulation of member complaints which was attended by 87 farmer members of the association.

MS-B

The Association shows Member Complaints SOP No. SOP/APSLSLB/004 dated January 9, 2019, which states, among others:

- Members can submit suggestions and complaints to the group leader or association management
- Officers appointed by the association management will record the complaint in the member suggestion/complaint book
- The identity of the reporter will be kept confidential
- Complaints will be discussed at an association meeting and responded to within at least 2 weeks

The Association shows the Member Complaint Register Book. One example is regarding the chairman of an association holding two positions at the same time, which was complained about by the initials JT on April 12, 2020. Based on the results of the FGD with 72 sample farmers, it is known that farmers have a good understanding of complaints through village administrators directly in the field.

Based on interviews with harvest workers with the initials Ji, Ju, Se, As, Yu, and Fa, they stated that workers' complaints can be conveyed directly to farmers.

	Status: Comply	
--	----------------	--

3.5

Working conditions and facilities are safe and meet minimum legal requirements.

E.

All association members have signed a commitment to provide safe working conditions and facilities, for example the 72 farmers sampled. One name that is an example is Hengki Formansyah Sianipar, which was signed on August 20, 2018.

MS-A

All association members and workers, also their family have received training regarding safe working conditions and facilities. For example, the association shows the minutes of the meeting on July 24, 2023, which includes discussions regarding the importance of using PPE and the existence of first aid, which was attended by 87 farmer members of the association.

The Association also showed the Minutes of the APSLSLB Harvest Socialization to workers in Kampung Padang Village, attended

by 7 harvest workers and Tebing Linggahara, which was only attended by 7 harvest workers on September 14, 2023, which discussed the use of PPE.

Based on the results of interviews with the manager group, it was discovered that the training participants were not limited to farmers and workers, but also their families.

MS-B

Based on field observations, it is known that the harvest workers with the initials Ji, Ju, Se, As, Yu, Sa and Fa were wearing PPE in the form of boots, gloves and glasses. Based on the results of interviews with workers and farmers, it is known that PPE is provided by the association. The association showed evidence of providing PPE to 1279 farmers. The provision of PPE will be carried out in stages in 2020, 2021 and 2022.

Based on verification of work risk analysis documents, it is known that harvest workers use helmets, boots, gloves and glasses. Based on the results of interviews with management, it is known that the provision of helmets is carried out in stages. The association also showed a helmet distribution plan document with the following details:

2023: 6 helmets, already realized in September 2023

2024: 500 helmets

2025: 500 helmets

2026: 273 helmets

Based on this, the Association encourages to ensure workers working in plantations use PPE in accordance with the work risk analysis that has been established. (OFI)

The Association also showed a First Aid Monitoring Report for example on July 20, 2022, in Tapian Nauli Hamlet and Purba Bangun Hamlet, Tebing Linggahara Baru Village. Based on the field visit, there was also a complete first aid bag with the person in charge, Masitoh Ritonga, in Tapian Nauli Hamlet.

Status: Comply

3.6

There is no discrimination, harassment, or abuse on the farm

Are there workers on the farm? If no, SKIP

E.

All association members have signed a commitment not to use forced labor practices, for example the 72 farmers sampled. One name that is an example is in the name of Hengki Formansyah Sianipar signed on August 20, 2018

MS-A

The Association shows the meeting minutes as follows:

- July 24, 2023, which included discussions regarding the prohibition of discrimination, harassment or violence, which was attended by 87 farmer association members.
- June 22-28, 2023, which included discussions regarding the prohibition of discrimination, harassment or violence, which was attended by 144 farmer association members.
- June 28, 2023, which included discussions regarding the prohibition of discrimination, harassment or violence, which was attended by 116 farmer members of the association.

MS-B

Based on interviews with harvest workers with the initials Ji, Ju, Se, As, Yu, and Fa, they stated that there was no discrimination, harassment or violence in any form carried out by farmers on the land they worked on. Workers also understand that this is prohibited and they feel free to do their work.

Based on the results of the FGD with 72 sample farmers, it was found that farmers had a good understanding of the prohibition on discrimination, harassment or violence and stated that they had received socialization regarding this prohibition.

Status: Comply

PRINCIPLE #4 PROTECT, CONSERVE AND ENHANCE ECOSYSTEMS AND THE ENVIRONMENT

4.1

High Conservation Values (HCVs) on the smallholder plot or within the managed area and High Carbon Stock (HCS) forests

identified after November 2019 using the simplified combined HCV-HCS approach are managed to ensure that they are maintained and/or enhanced.

E

All member has committed to protecting HCV and HCS forests through a precautionary practice approach. This is stated in the Statement of Commitment to Certification of RSPO APSKS Labuhanbatu. The group manager and all farmer members also understand the basic concepts of HCV areas and HCS forests. This is evidenced by the results of interviews with all sample farmers who stated that they know the types of animals that must be protected, are prohibited from burning, hunting and are prohibited from applying chemicals around a body of water with a limit of 20 meters. In addition, they have also realized the benefits of having animals and plants around them, for example as predators of rats, insectivorous birds that control pests and others.

The protection policy for protected animals is contained in several procedural documents, including:

- SOP for Animal Protection No. SOP/APSKSLB/016 dated 9 Jan 2019, which explains animal protection and how to manage it if there is an encounter with protected animals
- SOP for Mechanisms for Maintaining HCV Values No. SOP/APSKSLB/015 dated January 9 2019, which explains the grouping of HCV types and their management.
- SOP for Handling Conflicts with Animals No. SOP/APSKSLB/017 dated January 9 2019, which explains the prevention and handling of conflicts between humans and wild animals to all members of the Association.

MS-A

APSKS Labuhanbatu can show evidence that all group members have attended training on the protection of flora and fauna and conservation areas, including waterways, peatlands and areas with high erosion potential as evidenced in the following documents:

- Training in Tebing Linggahara Baru Village was held on June 27 2023, which was attended by 96 farmers.
- Training in Pulo Padang Urban Village was held on June 22 2023, which was attended by 144 farmers.
- Training in Lingga Tiga Village was held on June 22 2023, which was attended by 73 farmers.
- Training in Tanjung Harapan Village was held on June 26 2023, which was attended by 161 farmers.
- Training in Tebing Linggahara Village was held on June 23 2023, which was attended by 131 farmers.
- Training in Kampung Padang Village was held on June 28 2023, which was attended by 116 farmers.
- Training in Kampung Baru Village was held on June 28 2023, which was attended by 151 farmers.

The training also explained the prohibition on the application of chemicals around the border areas of rivers and water bodies, haunting, as well as the destruction of forest areas. The training was provided by a supervisory team from PT Musim Mas who are competent trainers in their respective fields. The results of interviews with all sample farmers also prove that they have a good understanding and can demonstrate an understanding of HCV and HCS forests, human-wildlife conflict and RTE.

MS-B

The association has identified RTE species, HCV, HCS forest as evidenced from the High Conservation Value (HCV) Management Results for Independent Smallholders conducted by the Indonesian Palm Oil Development for Smallholder (IPODS) Team in August 2018 to April 2019 which was conducted in 8 Villages in Labuhanbatu and Labuhanbatu Utara districts. The study covered the association member villages, namely Pulo Padang Urban Village, Tebing Linggahara Baru Village, Tebing Linggahara village, Tanjung Harapan Village, Kampung Padang Village, Sumber Mulyo Village, Kampung Baru Village and Lingga Tiga Village. This activity is carried out because independent smallholders must meet the RSPO principles and criteria to obtain certification. In a low-risk situation for an established oil palm plantation area, the steps for preventive practices in HCV management provided to independent smallholders are:

- Observation or scoping
- Dialogue
- Verification and monitoring

Based on the minutes of the dialogue and the results of the initial identification, HCV 1, HCV 2, HCV 3, HCV 4, HCV 5 were not found around the farmers' plantations. From the results of the assessment, there are no rare/protected species in the Farmer's Association location, and it is known that there are as many as 32 fauna species that are indicated to have been present in the estate and 2 protected flora species.

Based on interviews with APSKSLB administrators, it is known that farmers are prohibited from catching protected endangered

animals. The results of interviews with sample farmers in Sumber Mulyo Village, Kampung Baru Village, Tebing Linggahara Village, Kampung Padang Village, Tebing Linggahara Baru Village and Pulo Padang Village revealed that the farmers knew and understood the prohibition on hunting and capturing protected animals and protecting river borders. From the results of the field visit, it was also found that there were signs prohibiting spraying and application of chemicals ± 20 m from the river bank and that species of animals were protected as an effort to preserve the ecosystem in border areas.

Status: Comply

4.2

Where the existing smallholder plot has been planted and cleared after November 2005 or is on an area identified as HCS forests after November 2019 up to the eligibility period, a remediation and compensation process appropriate for smallholders based on Land Use Change Analysis (LUCA) will be applicable (Reference preamble).

E

APSKS Labuhanbatu can show information on all plots of smallholders converted and planted with oil palm after 2005 as well as all coordinates/maps of the plantation plots. A simplified combined HCV-HCSA approach has also been used which can be proven in the statement of commitment document contained in the Statement Letter of Willingness to Follow the RSPO Certification which contains:

- No grower replaces primary forest, or is exposed to one or more Conservation Values
- No land tenure conflicts
- Attach a photocopy of land ownership
- Willing to attend training and direction of association
- Provide farm information data to farmer groups and associations
- Willing to be assessed by a designated party in the RSPO certification process
- Willing to improve the land continuously

As well as a statement letter of Smallholder Declaration:

- I recognize the importance of sustainable production.
- I will join a farmer group to pursue group certification of the RSPO ISH Standard and comply with the principles and their relevant criteria and indicators
- I will provide the following information to my and group manager:
 - All land holdings
 - Location (coordinates) of all plots currently planted with oil palm
 - Information on all plots converted and planted with oil palm after 2005 (through use of the simplified combined HCV-HCS approach for Smallholders)
 - Any plots located on steep slopes
 - Any plots located on peat
 - Details on plans for replanting and expansion of oil palm
 - Any existing land disputes

MS-A

On August 29, 2023, APSKS Labuhanbatu sent an updated Disclosure data update of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB) to the RSPO explaining that there were total number of smallholders are 1,302 (total of 2,337 individual plots) with total certified area is 2,457.14 hectares and total area to be certified is 2,758.65 hectares.

This report calculates the compensation liability for Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu, Indonesia with summary calculated the Final Conservation Liability 0.00 ha and Environmental Remediation Area 1.14 ha.

Based on document of Smallholder Land Use Change Analysis for Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu 2023, known as:

- This report is aimed at analysing the land use change and establishing the compensation liability for Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu.
- 110 separate landholdings with non-compliant land clearing are required for compensation liability analysis.
- Total area of all separate landholding with non-compliant land clearing is 140.72 ha
- The raw NCLC is 136.81 ha and the FCL is 0 ha
- A total of 3 smallholder area was planted with oil palm within riparian zone buffer.

- No smallholder area was planted with oil palm within steep slope >22°.
- No smallholder area was planted with oil palm within peatland.
- Thus, the total area needs to be remediated is 1.14 ha.

MS-B

Based on the results of the report on the calculation of compensation responsibility for the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB), the association that has a remediation obligation is 1.14 ha. Therefore, the Association shows compliance in the form of a remediation plan contained in the LUCA Management Report on Riparian Area on July 10, 2023. With activities;

- Do not use chemicals in river bank areas at least 20 meters from the riparian area.
- Do not throw rubbish and waste from land activities into the river.
- Maintaining natural vegetation.
- Installing of signboard against polluting rivers; throwing rubbish, fishing etc
- Mark the oil palm trees on the banks of the river.

Based on verification of communications between the RSPO and the Association represented by the counterpart PT Musim Mas, it shows that the association has identified areas for remediation and has reported to the RSPO. The Association does not have an obligation to report remediation plans in accordance with the RSPO instruction via email (23 August 2023) stating that currently the progress of independent smallholders' RaCP progress only goes up until the LUCA procedure. Therefore, associations are not required to submit a Remediation Plan.

Status: Comply

4.3

New plantings of independent smallholders, since November 2019:

- Do not replace any HCVs
- Do not replace any HCS forests as defined by the simplified combined HCV-HCS approach
- Are not on steep slopes (more than 25 degrees or as in NI)
- Are not on peat areas of any depth.

Do any smallholders within the group have plans for new plantings of oil palm? If none, SKIP

E, MS A & MS B

Until the ASA 4 audit held and referring to the Association's plans, there were no new planting plan outside the current certification area. Based on the 2023 work plan document, there are no plans to add new members, there are only plans to expand the land of farmers who are already members and replanting activities, considering that several members have with plants over 20 years old.

Regarding replanting in conservation areas, all members have signed a declaration not to carry out new planting in HCV or HCS forests, on steep slopes or on peat. Apart from that, all current association members do not have areas with these qualifications.

Regarding replanting in conservation areas, all members have signed a declaration not to carry out any new plantings or expansion of existing plantations in HCV or HCS forests, riparian areas, or on steep slopes. All current association members do not have areas with these qualifications. In addition, the association also has SOP No. SOP/APSLSLB/035 dated January 9, 2021, regarding new plantings and replanting.

Status: Comply

4.4

Where smallholder plots exist on peat, subsidence and degradation of peat soils is minimised by use of best management practices.

Do any smallholders within the group have existing plots on peat? If no, SKIP

E, MS-A, MS-B

APSKSLB has a map of the distribution of farmers' plantations at the Labuhanbatu Independent Palm Oil Planters Association regarding the 2021 Peat and Forest Moratorium with a scale of 1:269,000 and a map of soil types with a scale of 1:200,000. Information was obtained that there is no peat land in the plots of land managed by the farmers who are member of APSKSLB. With mapping sources from field surveys of farmers' land, the PIPPIB Indicator Map of Primary Natural Forests and peatlands in 2021 period 1

(one), and the 2019 BPS Indonesian administrative boundaries.

Based on the RTRW map of Labuhanbatu Regency and the STDB documents owned by farmers, it is known that there are no peat areas on the land of farmers who are members of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu (APSKS LB).

From the results of field visits and interviews with 72 sample farmers in Sumber Mulyo Village, Kampung Baru Village, Tebing Linggahara Village, Kampung Padang Village, Tebing Linggahara Baru Village and Pulo Padang Urban Village, information was obtained that there was no land of member association located on peat, all of the association are on mineral land.

Status: Comply

4.5

Plots on peat are replanted only on areas with low risk of flooding or saline intrusion as demonstrated by a risk assessment.

Do any smallholders within the group have plans for replanting plots that are located on peat? If no, SKIP

E, MS-A, MS-B

Based on the RTRW map of Labuhanbatu Regency and STDB documents owned by farmers, it is known that there is no peat area on the land of farmers who are members of the Asosiasi Pekebun Swadaya Kelapa Sawit Labuhanbatu.

Based on the verification of documents on the APSKSLB Farmers' Estate Distribution Map on Protected Areas and the 2021 Indicative Map of Postponing the Granting of New Permits (*PIPPB*) and a soil type map of 1:200,000 scale, information was obtained that there was no peat in the plots of land managed by farmers who are members of the APSKSLB.

Regarding replanting in conservation areas, all members have signed a declaration not to carry out any new plantings or expansion of existing plantations in HCV or HCS forests, riparian areas, or on steep slopes. In addition, the association also has SOP No. SOP/APSLSLB/035 dated January 9, 2021, regarding new plantings and replanting.

Based on the results of field visits and interviews with 20 farmers from 6 sample villages, information was obtained that none of the association's member plots of land were on peat land, all of the association's member plots of land were on mineral land.

Status: Comply

4.6

Fire is not used on the oil palm plot for preparing land or for pest control, nor open fire for waste management on the farm.

E

The Association has a commitment based on Decree No. SK/036/APSKS-LB/VIII/2021 concerning the Use of Fire. Referring to this commitment, all planters before joining as APSKSLB members are required to make a signed statement as a requirement for membership. In the letter there are commitments that must be adhered to by every planter regarding the use of fire in palm oil plots for land preparation, controlling pests, or managing waste in the plantation.

In the statement letter, commitment point number 15 states that there is no burning to prepare land or control pests. Then in number 18 it is stated that not using fire for waste management.

MS-A

Based on the results of field visits and interviews with 72 sample farmers in Tebing Linggahara Baru Village, Kampung Padang Village, Tebing Linggahara Village, Kampung Baru Village, Pulo Padang Urban Village, and Sumber Mulyo Village, it is known that there were no burning activities or traces of burning during land clearing and management waste. The farmers interviewed also understood about not clearing land, controlling pests and managing waste using fire. They said that they had signed a commitment regarding this matter when joining the association.

Evidence related to socialization/training regarding the prohibition of the use of fire in oil palm plots and preventing fires in communities and villages is in the attached evidence:

- Training in Tebing Linggahara Baru Village on June 27 2023
- Training in Pulo Padang Urban Village on June 22 2023
- Training in Lingga Tiga Village on June 22 2023
- Training in Tanjung Harapan Village on June 26 2023

- Training in Tebing Linggahara Village on June 23 2023
- Training in Kampung Padang Village on June 28 2023
- Training in Kampung Baru Village on June 28 2023
- Training in Sumber Mulyo Village on June 28 2023

As proof that farmers have received training to increase competency related to fire control, an example can be shown through a report on fire and fire emergency response training activities carried out on August 8 2023 with OHS Fire Management Expert PT Siringo-ringo's Fire who has AK3 Fire certification (Reg No. 4785/KoordK3-KEB/XI/2021 valid until 30 November 2024). The material presented is in the form of; use of fire extinguisher, installation and placement, technical requirements, etc. This training was attended by 61 farmers from representatives of each village.

MS-B

Based on the results of field observations and interviews with stakeholders (Plantation Agency and Environment Agency of Labuhanbatu Regency), information was obtained that there was no physical evidence of burning for land preparation (replanting) and waste management on oil palm land by farmers. The results of the interviews also stated that they understood the procedures for prohibiting burning so that when replanting was carried out, they used mechanical methods (chipping). Farmers also do not burn waste in the land but pile it into compost. Farmers can explain fire control procedures well in accordance with the SOP they have.

Status: Comply

4.7

Riparian buffer zones are identified and managed to ensure they are maintained and/or enhanced.

E

The association has identified riparian buffer zones from the results of the field assistant in the group listed in the Management Plant of the River Border Area with the result that there are 134 blocks that have riparian zones in their estates areas. The following is the identification of rivers in the APSKS-LB group area:

No	Village	River Name
1	Sumber Mulyo	Marbau River
2	Kampung Padang	Bilah River, Aek Kundur River
3	Lingga Tiga	Aek Kundur River, Aek Riung River, and Gunung Gajah River
4	Tanjung Harapan	Bilah River
5	Tebing Linggahara Baru	Bilah River
6	Tebing Linggahara	Bilah River, and Linggahara River
7	Kampung Baru	Aek Manis River, and Aek Buru River
8	Pulo Padang	Bilah River, and Titi Panjang River

All group members represented from the sample farmers have also signed a declaration not to carry out new plantings or replanting activity in riverbank areas which can be demonstrated in the commitment document to protect HCV and HCS forests through the precautionary practice approach of each member as contained in the Statement Letter of RSPO. The Association's Certification Commitment which has been signed by each member is, as follows:

- No new planting or no expansion of existing farms in primary forests, HCV areas, HCS forests, in riparian areas, or on steep slopes (more than 25 degrees or as in National Interpretation)
- Protect HCVs and HCS forests through the precautionary practices approach
- No new planting and replanting on peat only in areas with low risk of flooding

MS-A

According to the standard Operational Procedure for Riparian Area Management No. SOP/APSLSLB/033 dated January 9, 2019 that all farmers/association members are responsible for maintaining buffer areas on the riparian area. The following is the management of the area management which is carried out by taking into account the following matters;

- The total prohibition of spraying all the way to the riparian area, at least 3 trees (20 meters) from the riparian area, no chemical spraying is allowed.
- For riparian area that are prone to erosion, it is necessary to do conservation such as planting plants that can reduce river bank erosion
- carry out remediation of at least 3 trees (20 meters) from the river bank as a form of prevention and restoration of the polluted environment

- Prohibition of throwing garbage indiscriminately especially into the river
- Prohibition of throwing the fronds into the river
- Monitoring for riparian area sign

The association has completed training on the management of buffer zones for the river basin contained in the HCV area training provided by the mentoring team from PT Musim Mas with competent trainers in their fields with the following sample evidence:

- Tebing Linggahara Baru Village was held on June 27 2023 which was attended by 96 farmers.
- Pulo Padang Urban Village was held on June 22 2023 which was attended by 144 farmers.
- Lingga Tiga Village was held on June 22 2023 which was attended by 73 farmers.
- Tanjung Harapan Village was held on June 26 2023 which was attended by 161 farmers.
- Tebing Linggahara Village was held on June 23 2023 which was attended by 131 farmers.
- Kampung Padang Village was held on June 28 2023 which was attended by 116 farmers.
- Kampung Baru Village was held on June 28 2023 which was attended by 151 farmers.
- Sumber Mulyo Village was held on June 26 2023 which was attended by 110 farmers.

Some of the activities planned are marking of area boundaries, prevention and control of land fire hazards, protection of areas and species of flora and fauna. The implementation activities by installing signboards prohibiting land clearing by burning, prohibiting chemical spraying, and hunting. The results of the interview also showed that the farmers were aware of the management of the riparian area with not applying chemicals such as fertilizers and pesticides, or not replanting the river border area.

MS-B

Based on the results of field visits to the sampled farmer's in Tebing Linggahara Baru Village at No. ID 109a it is known that the management of plantations bordering the river border is that there are no traces of chemical application on the river border, there are signs of chemical application limits, warnings for prohibiting the application of chemicals in river border areas, there is no pile of garbage on the riparian area, and there is still natural vegetation up to 20 meters to maintain the ecosystem. Based on the results of interviews with farmers, the river border area is also planted with erosion-preventing plants such as *waru*, *galogga*, and other vines.

Status: Comply

4.8

Pesticides are used in ways that do not endanger health of workers, family, communities or the environment.

E

The Association has Decree No. SK/034/APSLS-LB/VI/2021 as a commitment to control weeds without paraquat which states that association members are committed not to use pesticides with active ingredients of paraquat and have active ingredients class 1A and 1B which are prohibited by WHO and have been socialized to members.

From the results of document verification, the association has a recapitulation report on pesticide use in 2023 where the use of chemicals used is only with the active ingredient *glyphosate*.

From the results of interviews with farmers, which is reinforced by evidence of a document review on the statement letter signed by the farmer when joined. In point 19, the farmer's commitment is to gradually avoid the use of paraquat and pesticides which are categorized by the World Health Organization (WHO) in class 1A or 1B and which are included in the list of the Stockholm Convention or the Rotterdam Convention.

MS-A

The association has provided training in stages to all group members related to Good Agricultural Practices (GAP) such as:

- Pest and disease control training
- Estate maintenance training
- Training on harvesting productive crops
- Fertilization training on oil palm plantations

In accordance with SK/015/APSLS-LB/II/2019 concerning the prohibition of employing pregnant and lactating women, and young worker related storage, disposal, and pesticide application, training has been carried out on;

- Tebing Linggahara Baru Village was held on June 27 2023 which was attended by 96 farmers.
- Pulo Padang Urban Village was held on June 22 2023 which was attended by 144 farmers.

- Lingga Tiga Village was held on June 22 2023 which was attended by 73 farmers.
- Tanjung Harapan Village was held on June 26 2023 which was attended by 161 farmers.
- Tebing Linggahara Village was held on June 23 2023 which was attended by 131 farmers.
- Kampung Padang Village was held on June 28 2023 which was attended by 116 farmers.
- Kampung Baru Village was held on June 28 2023 which was attended by 151 farmers.
- Sumber Mulyo Village was held on June 26 2023 which was attended by 110 farmers.

The association also shows a of chemical used report for the 2023 period, where the use of chemicals used is only with the active ingredient *glyphosate*.

MS-B

Based on the verification of the monitoring report document for pregnant and lactating women workers, there were 18 female workers as pesticide applicators in 8 villages (Pulo Padang Urban Village, Tebing Linggahara Baru Village, Tebing Linggahara Village, Tanjung Harapan Village, Kampung Padang Village, Sumber Mulyo Village, Lingga Tiga Village, and Kampung Baru Village).

In implementing BMP for all pesticide use, including prohibiting the use of pesticides by pregnant and lactating women, and young workers and avoiding paraquat and pesticides. The association has monitoring activities for women workers every 6 months which is carried out by the data document division of each association village, verbally workers have the obligation to report if they are pregnant or breastfeeding to the association manager in the village.

Based on the verification of the list of pesticide use documents for the August 2022 – July 2023 period, field observations and interviews with several farmers, farmers do not use pesticides with the active ingredient paraquat. Some farmers only use herbicides with the active ingredient *glyphosate* for weed control. This is in accordance with the association's directives, all pesticides used have a registration issued by the government.

Based on a review of documents on ASA 4, the use of herbicides (glyphosate) has also decreased, due to increased awareness of farmers to maintenance the land using manual techniques.

Status: Comply

4.9

The group and smallholders manage pests, diseases, weeds and invasive introduced species using appropriate techniques, including but not limited to Integrated Pest Management (IPM) techniques.

E

-

MS-A

The Association has provided gradual training on Good Agricultural Practices (GAP) including (but not limited to) the use of safe chemicals, IPM, and management of weeds and invasive species, such as:

- Pest and disease control training
- Estate care and maintenance training
- Training on harvesting productive crops
- Fertilization training on oil palm plantations

For example, training was carried out in Tebing Linggahara Village, which was held on June 23, 2023, and Sumber Mulyo Village which was held on June 26 2023 and attended by all farmers. The training explains integrated pest control, fertilization, harvesting, use of pesticides, management of hazardous and toxic waste including used pesticide packaging, diseases, weeds and invasive introductions.

MS-B

In implementing its commitment to reducing chemicals, the association implements integrated pest management using biological controllers such as owls (*Tyto alba*) and cultivates plants that function as habitats for natural predators of plant pests such as *Turnera subulata*.

The results of a review of documents listing pesticide use for the 2023 period show that farmers do not use pesticides with the active ingredient paraquat. Some farmers only use herbicides with the active ingredient glyphosate to control weeds. In accordance with the

association's directives, all pesticides used have registration issued by the government.

Based on the results of field observations with sample farmers in Tebing Linggahara Village, Kampung Padang Village, Tebing Linggahara Baru Village, Kampung Baru Village, Pulo Padang Urban Village and Sumber Mulyo Village, it is known that the majority of farmers use mechanical methods to control weeds, namely by clearing. From the results of interviews with farmers, it is known that there are only plant diseases of Ganoderma which are handled manually and there is no pesticide spraying, farmers are aware of the negative impact of using paraquat both for health and the environment. They are committed to not using paraquat again in managing their oil palm plantations.

So, from these data it can be concluded that growers have made efforts to maximize the use of the IPM approach to minimize the use of pesticides and herbicides for its maintenance.
